Nurserymen

Growers and Importers

NEWARK, NEW YORK STATE

FOREWORD

YOUR HOME is your great source of health and happiness. You furnish the inside with pleasing charm—the outside is of equal importance to you. That is why home owners are giving more thought and attention each year to the planting of good shrubs, evergreens, roses, trees, berry bushes and grape vines.

You make no investment equal to that of planting our guaranteed nursery stock. No other outlay of money will do more for you as it increases each year the value of your home.

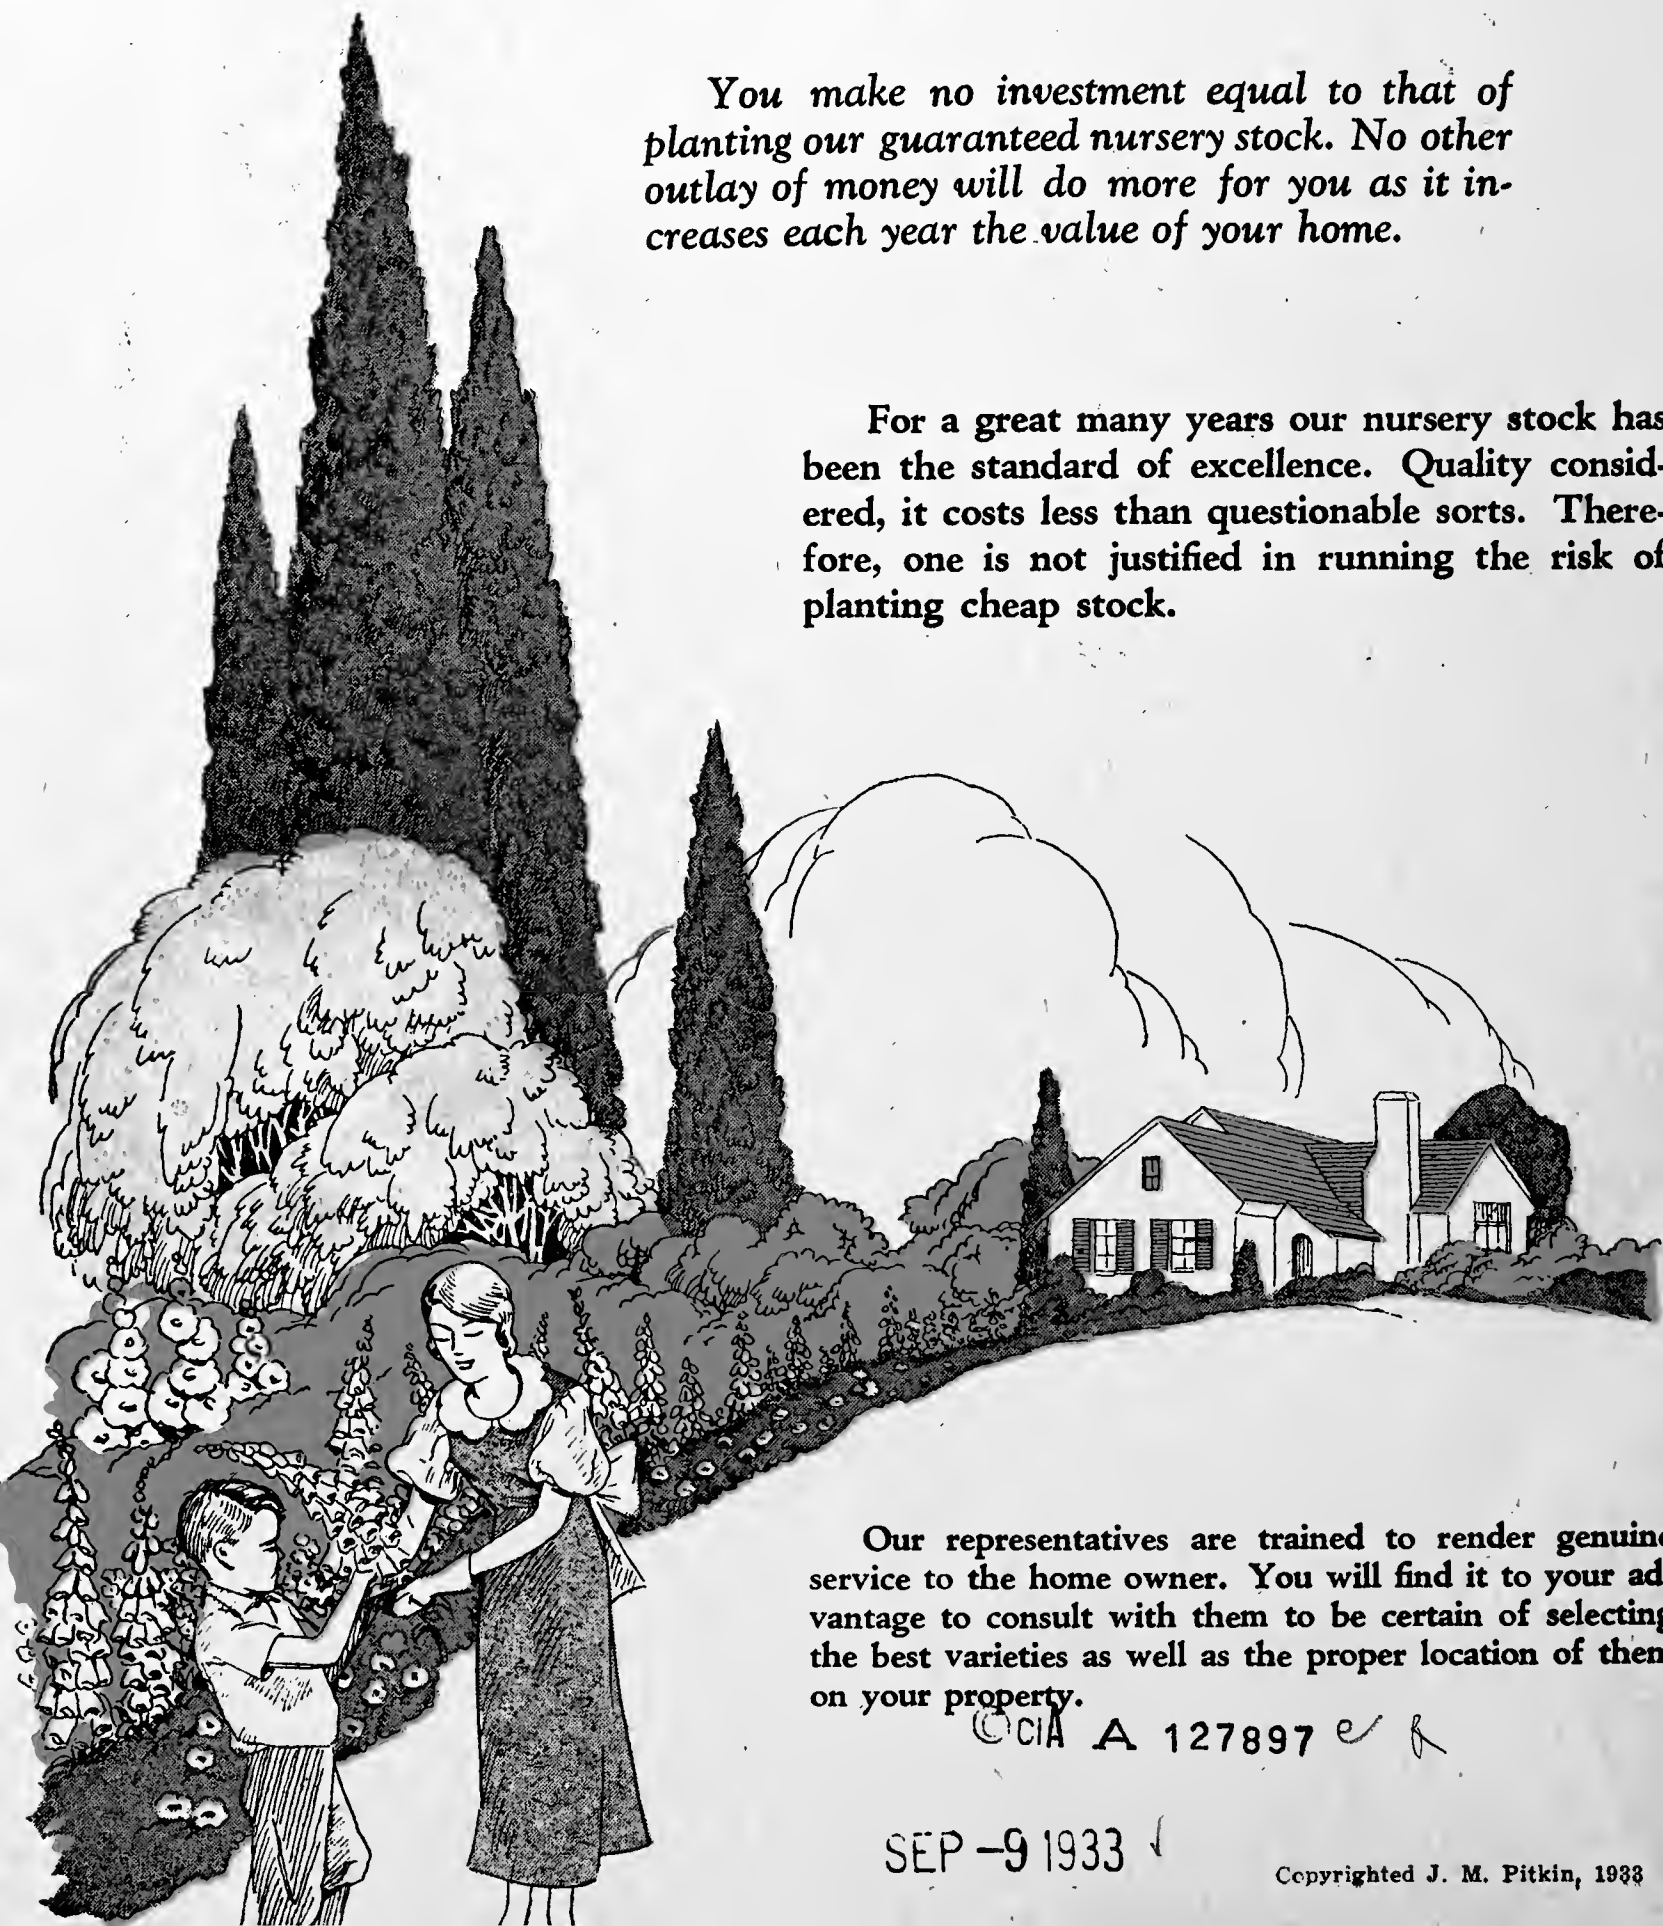

For a great many years our nursery stock has been the standard of excellence. Quality considered, it costs less than questionable sorts. Therefore, one is not justified in running the risk of planting cheap stock.

Our representatives are trained to render genuine service to the home owner. You will find it to your advantage to consult with them to be certain of selecting the best varieties as well as the proper location of them on your property.

Our Suggestion for a Proper Landscape

A small expenditure for this planting compared to the actual cost of the house itself, has done more to make it beautiful, livable, valuable, and home-like than any other single item.

"It's not a home until it's planted." Make your house a home.

NEXT TO CURB)

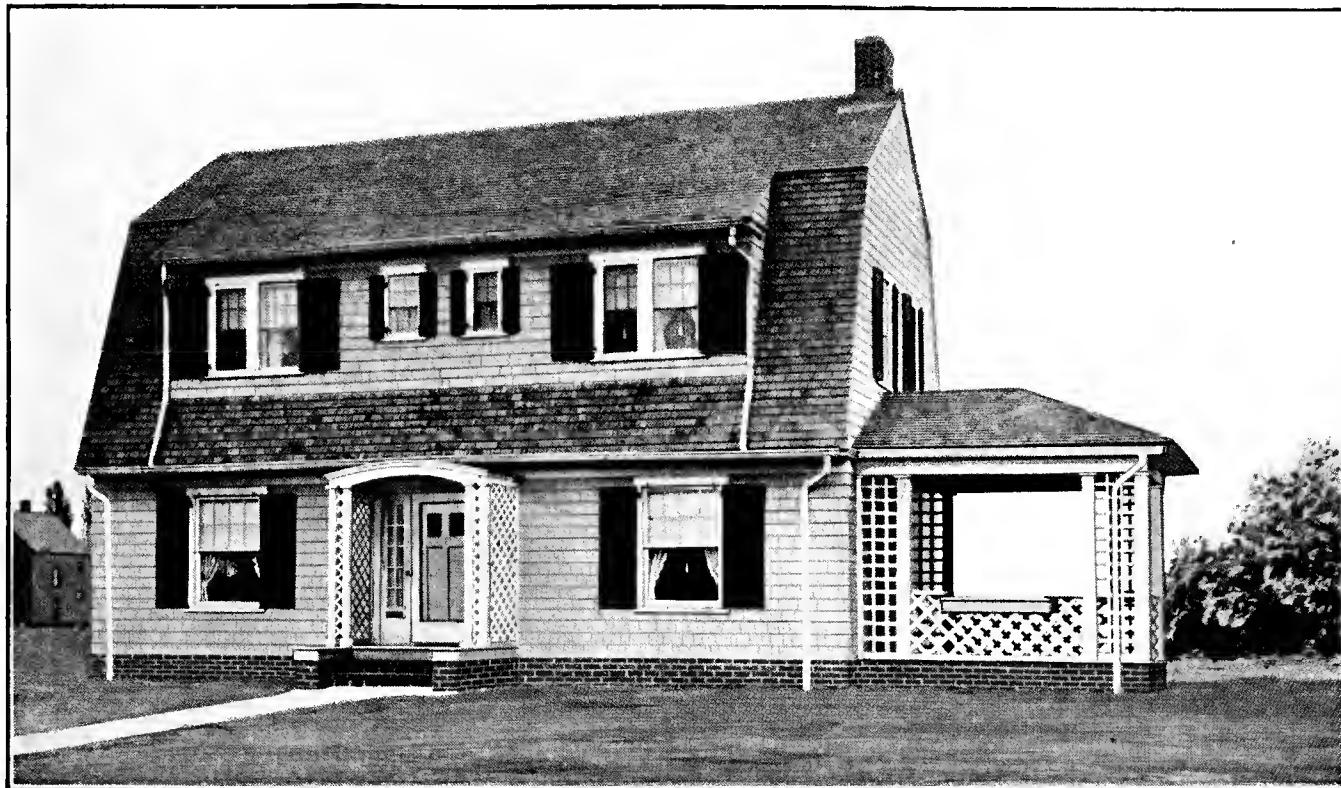

Before and After Planting

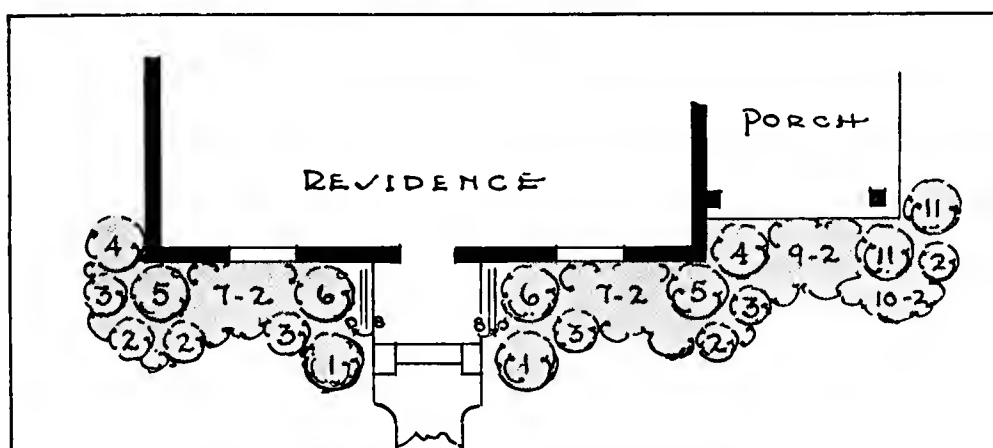

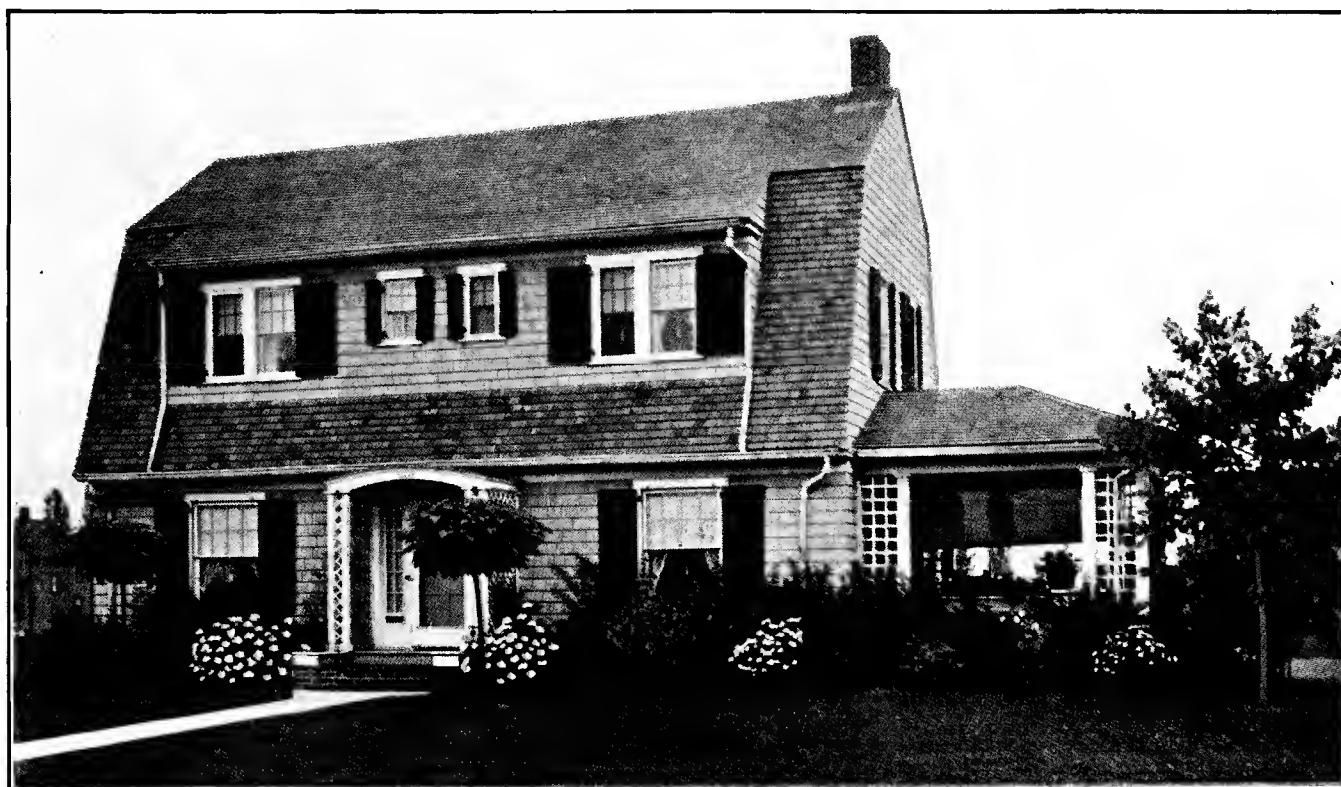

Notice please, the bare, bleak, and unhomelike appearance of the house before planting. Likewise notice that the few dollars expended for **high grade** nursery stock used in the exterior decorating of the same house have converted it into a “home.”

A Beautiful Home "on the Avenue"

For your own comfort and pride, for the influence upon your children, for the upbuilding of the community in which you live . . . just compare the results of the unplanted home above with the same home completely landscaped . . . truly it is not a home until it is planted.

Property Values Increased \$500 to \$1000

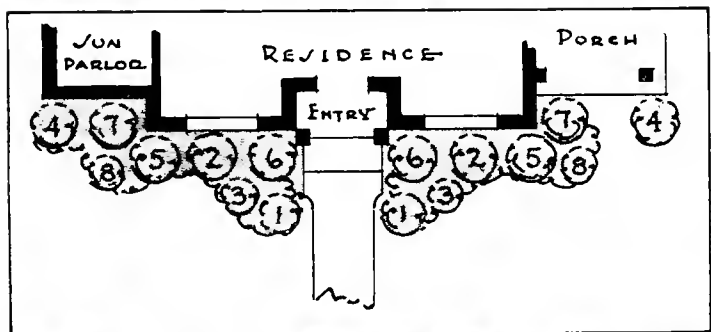

To greatly increase the value and marketability of your property, the real estate man says: "Planted homes are easier to sell. The planting increases the value of the home from \$500 to \$1000 or more."

A very effective foundation planting. Inexpensive in first cost, it becomes a distinct asset to the appearance and value of your home. The flowering shrubs used in the above planting consist of two Blue Ribbon Shrub Bargain Groups as illustrated on pages 8 and 9.

FLOWERING ALMOND

Double pink flowers. Strikingly brilliant blossoms in May. Grows 4 to 5 feet high.

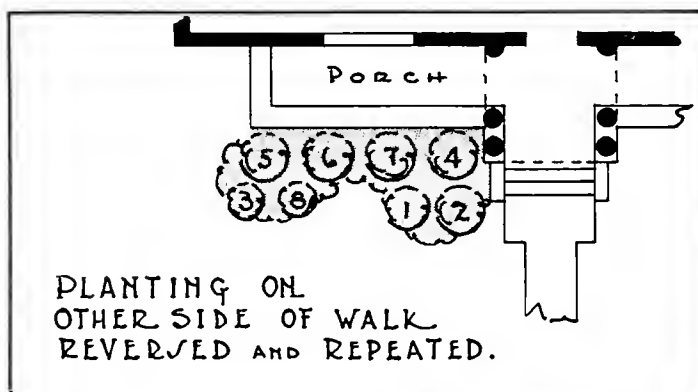

HYBRID FRENCH LILAC, PRES. GREVY

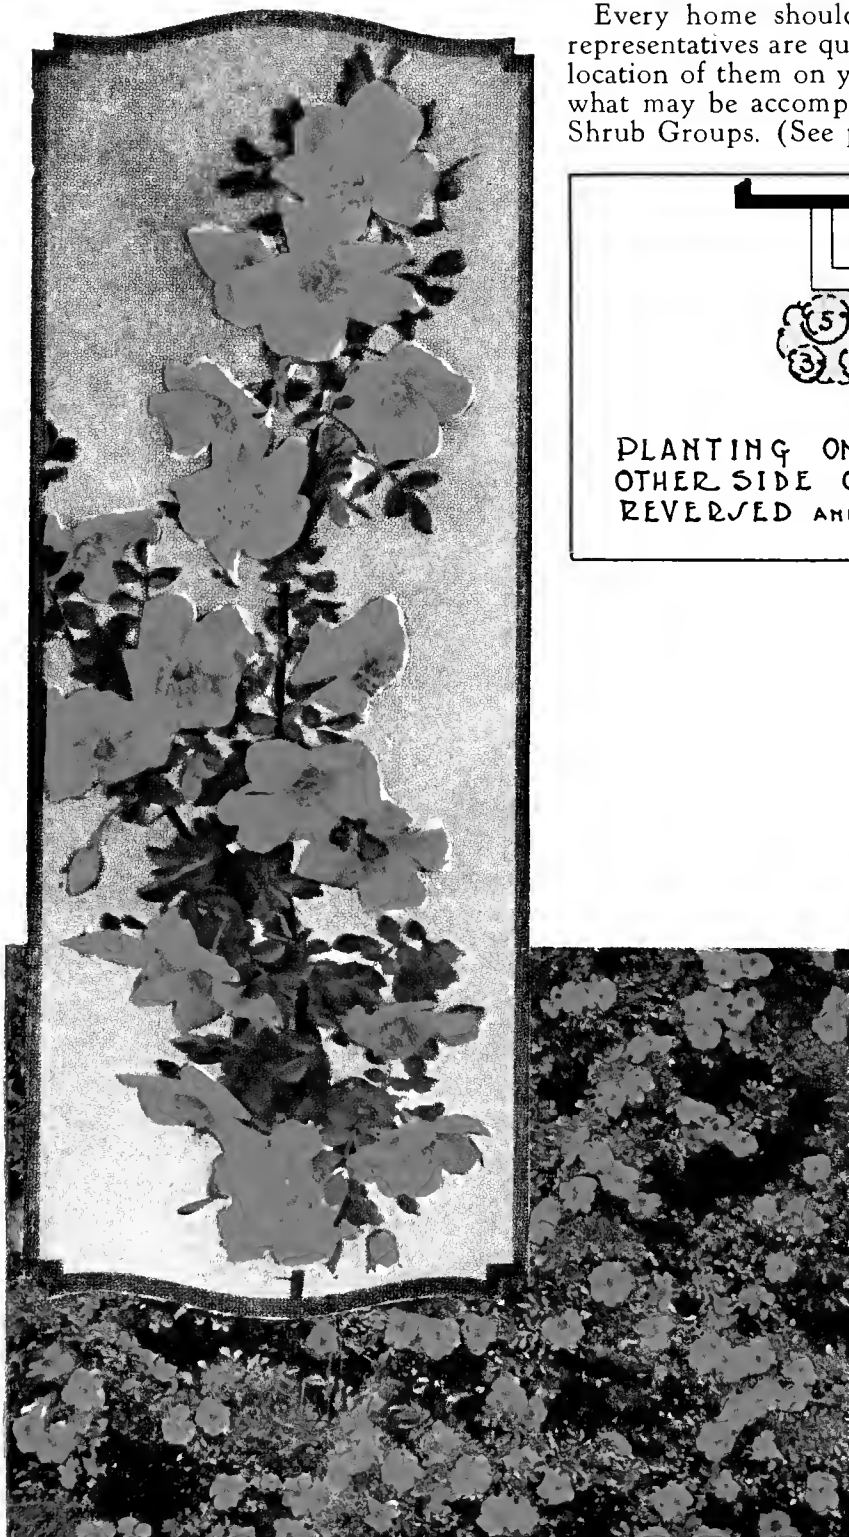

A beautiful new Gold Medal Lilac. The illustration does not begin to do justice to its lovely mauve-blue blossoms borne in profusion in huge clusters.

Every home should have an attractive well-planned shrub planting. Our representatives are qualified to suggest the proper selection of varieties and the location of them on your home grounds. The above delightful planting shows what may be accomplished at a minimum expense by using our Blue Ribbon Shrub Groups. (See pages 8 and 9).

HUGONIS, Golden Rose of China (Shrub).

An early blooming rose shrub covered with yellow flowers. Ultimate height 5 to 7 feet.

DOUBLE FLOWERING JAPAN QUINCE

A very brilliant shrub, has bright scarlet blossoms in May. Grows 4 to 6 feet high.

Plant Our Blooming Size Flowering Shrubs

To Get Beautiful Effects
the First Year

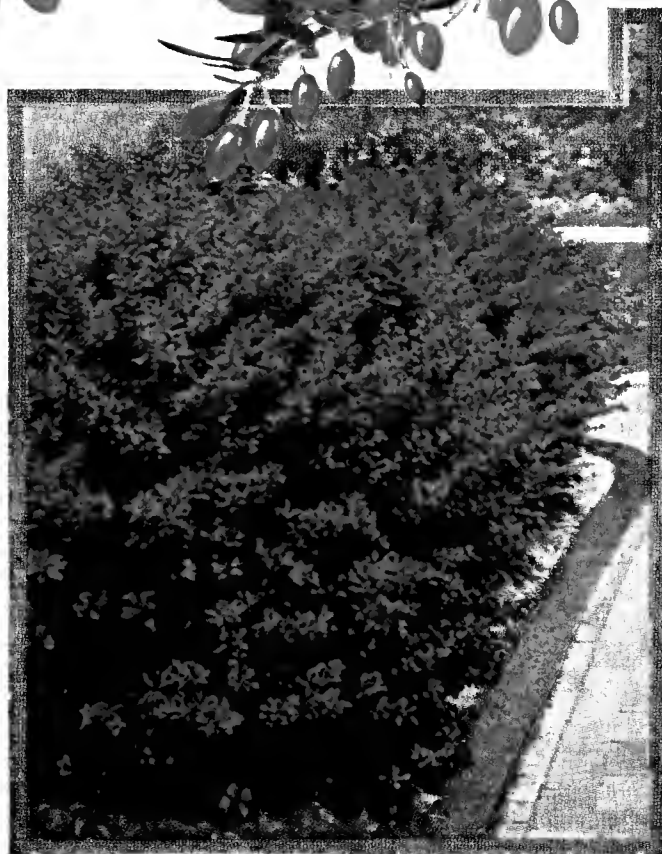

VIBURNUM - Snowball

Blooms May and June. Large, full, round blossoms that look like snowballs. Ultimate height 6 to 8 feet.

CRANBERRY BUSH

White flowers in May and June. An excellent decorative shrub, yielding clusters of scarlet berries that hang most all winter. Ultimate height 8 feet.

RED BARBERRY, ETERNAL FLAME

A new colored shrub of unusual brilliancy. Leaves remain red the entire season. It is a beauty—you'll like it. Plant in a sunny location. Grows 3 to 4 feet high.

DOUBLE FLOWERING ALTHEA - Rose of Sharon

Large flowers, August till frost. Most popular of fall-flowering shrubs. Ultimate height 6 to 8 feet. We offer Double Pink, Red, White, Purple and Blue.

Blue Ribbon Shrub Group

HYDRANGEA, HILLS OF SNOW

Gorgeous big blooms from June to September. Very decorative. Suitable for every planting. Excellent for floral hedge. Ultimate height 3 to 6 feet.

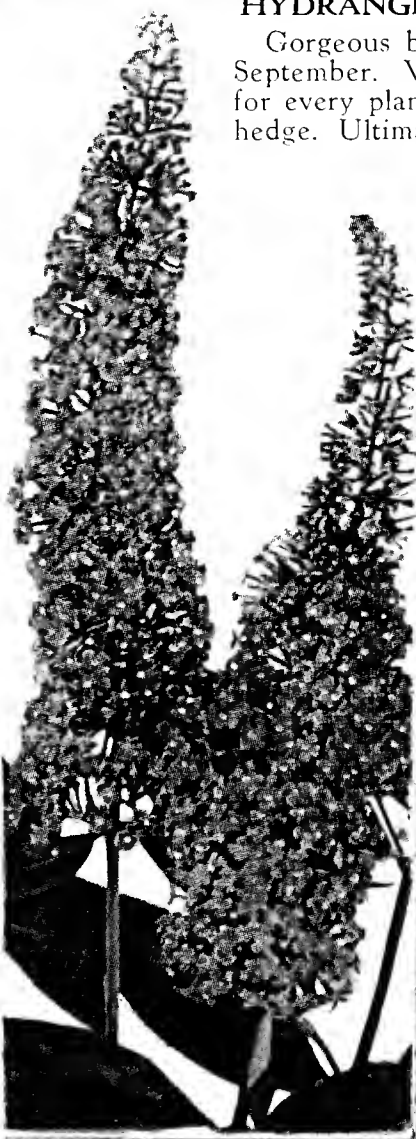

DEUTZIA GRACILIS

A mass of bloom in May and June. Fine for cut flowers. Excellent for borders or for front of foundation planting. Also used for rock gardens. Ultimate height 2 to 3 feet.

page 28*

BUDDLEIA MAGNIFICA (Butterfly Bush)

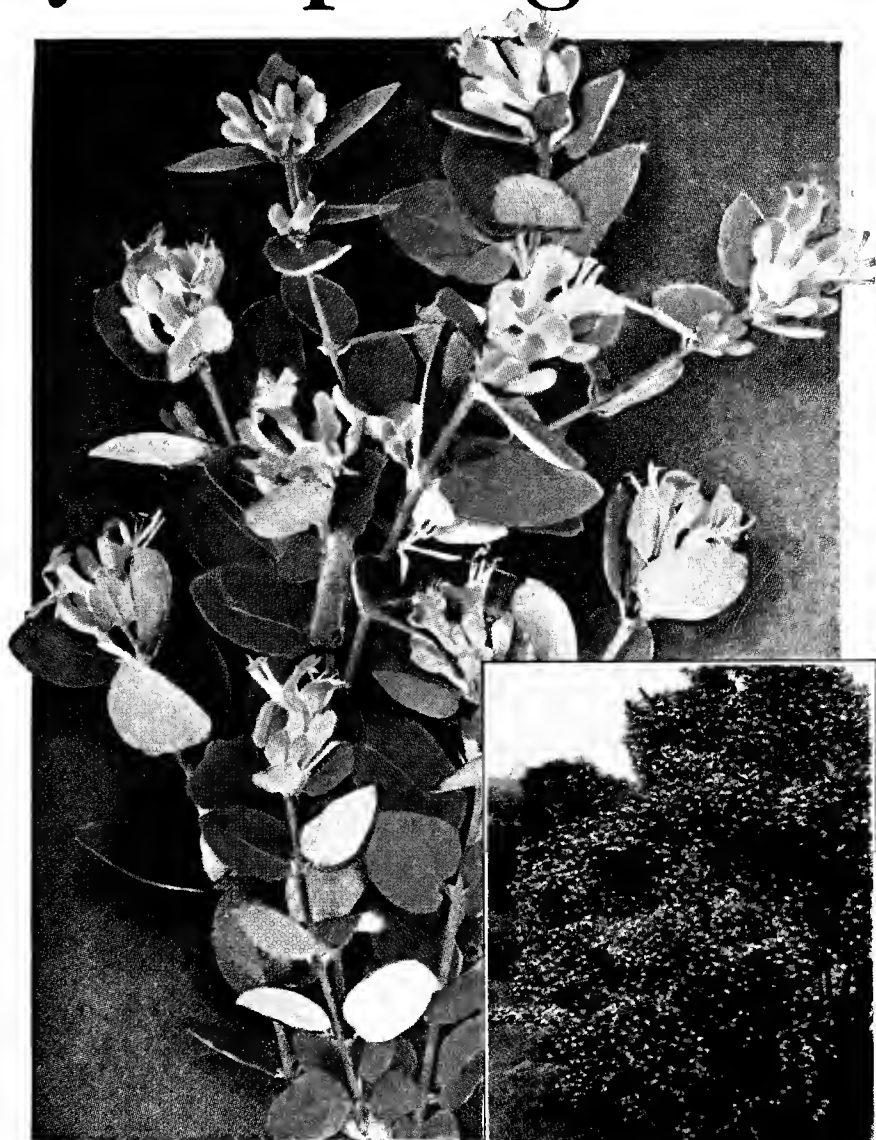

Blooms all summer. Very fragrant and beautiful. Ultimate height 5 to 6 feet.

FORSYTHIA FORTUNEI (Golden Bell)

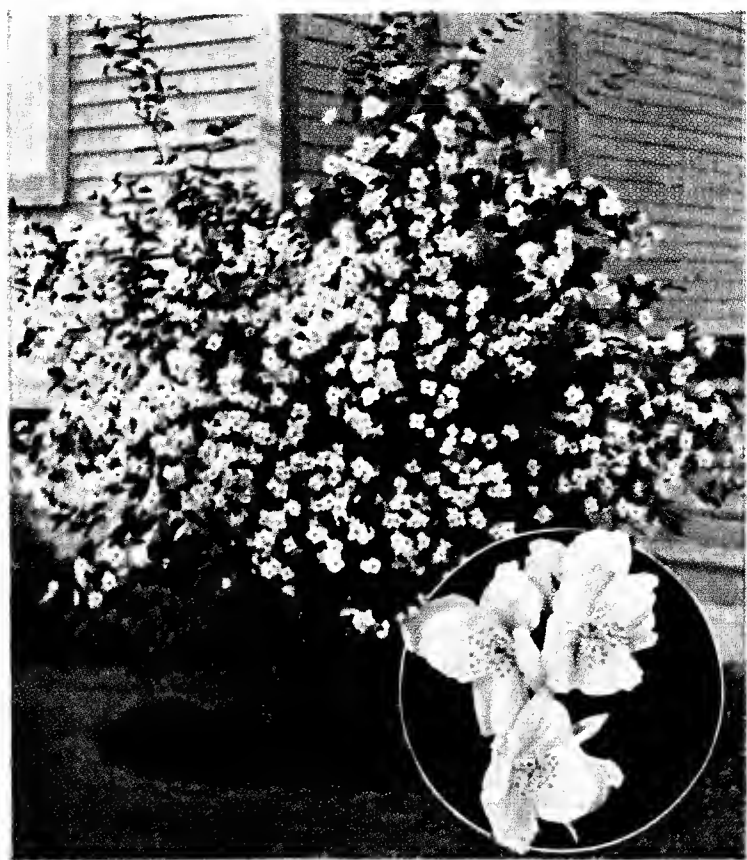

Masses of large, golden yellow flowers that completely cover the branches before foliage appears. The first of the spring-flowering shrubs to blossom. Ultimate height 6 to 7 feet.

for Spring to Fall Blooming

LONICERA RUBRA (Red Tatarian Honeysuckle)

Has a profusion of fragrant blossoms in May and June followed by beautiful red and orange berries that completely cover the bush, giving it great summer and winter beauty. Ultimate height 6 to 8 feet.

SYRINGA VIRGINAL

Lovely double, unusually large flowers in May and June, continuing into the fall. Excellent for cut flowers. Ultimate height 4 to 6 feet.

PHILADELPHUS AUREA (Golden Syringa)

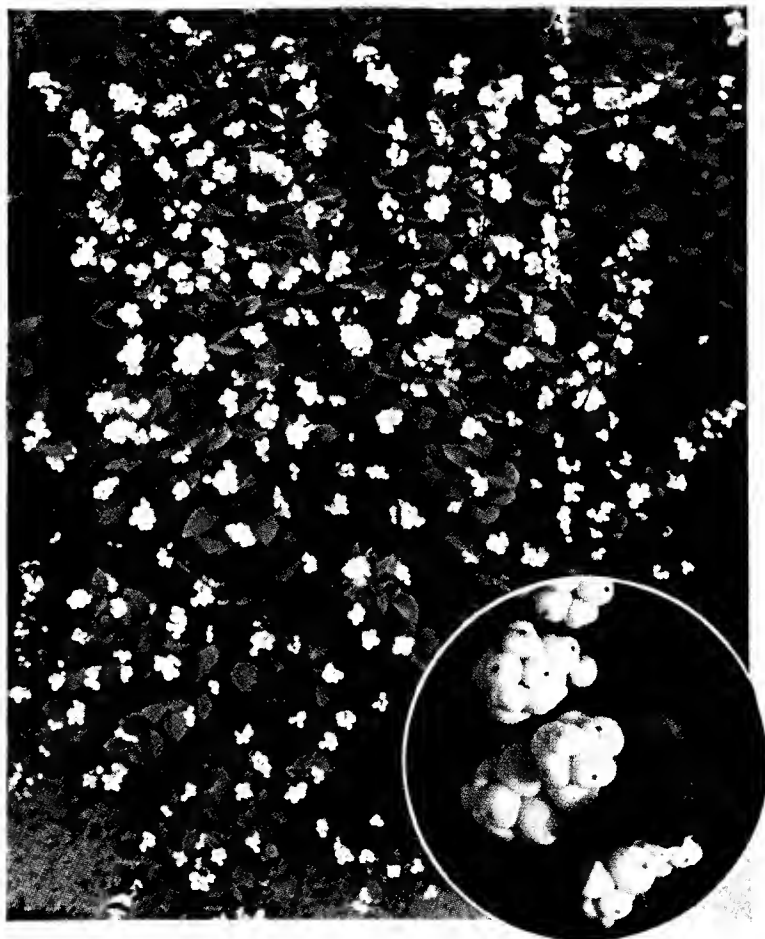

Bright yellow foliage makes a striking contrast with other shrubs or evergreens. Fragrant white flowers in May and June. Grows 5 feet high.

SPIREA ANTHONY WATERER

Blooms all summer. Excellent in front of tall growing shrubs and in the rock garden. One of the finest dwarf growing shrubs. Ultimate height 2 feet.

Flowering Shrubs ~ The Corner-

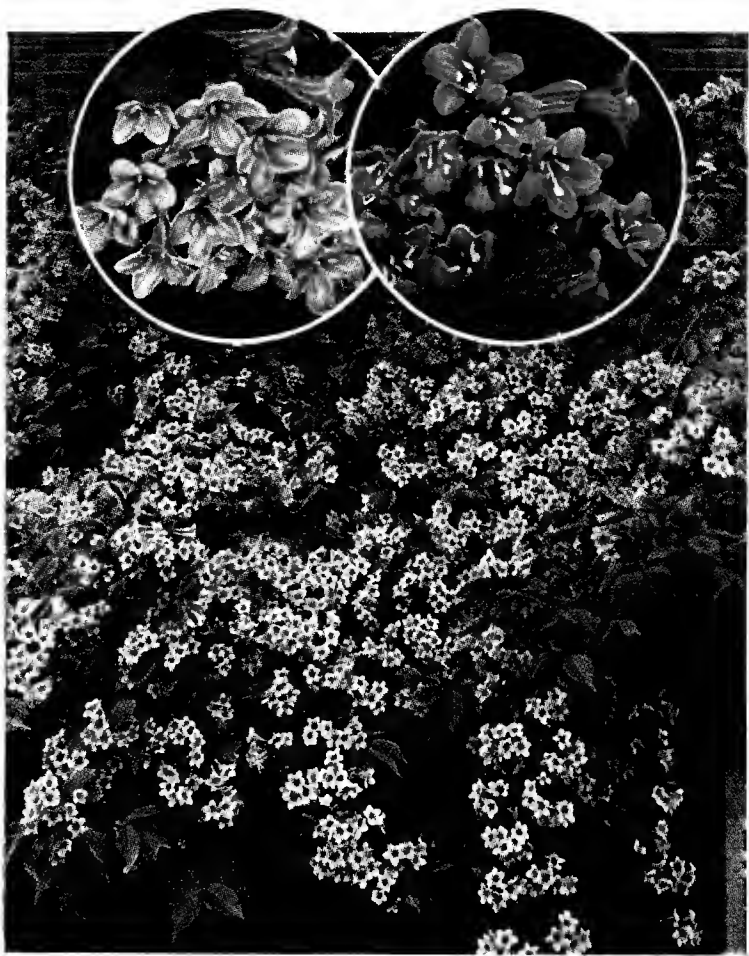

SNOWBERRY

Small pink blossoms in July are followed by large white waxy berries. Belongs in every shrub planting. Ultimate height 4 to 6 feet.

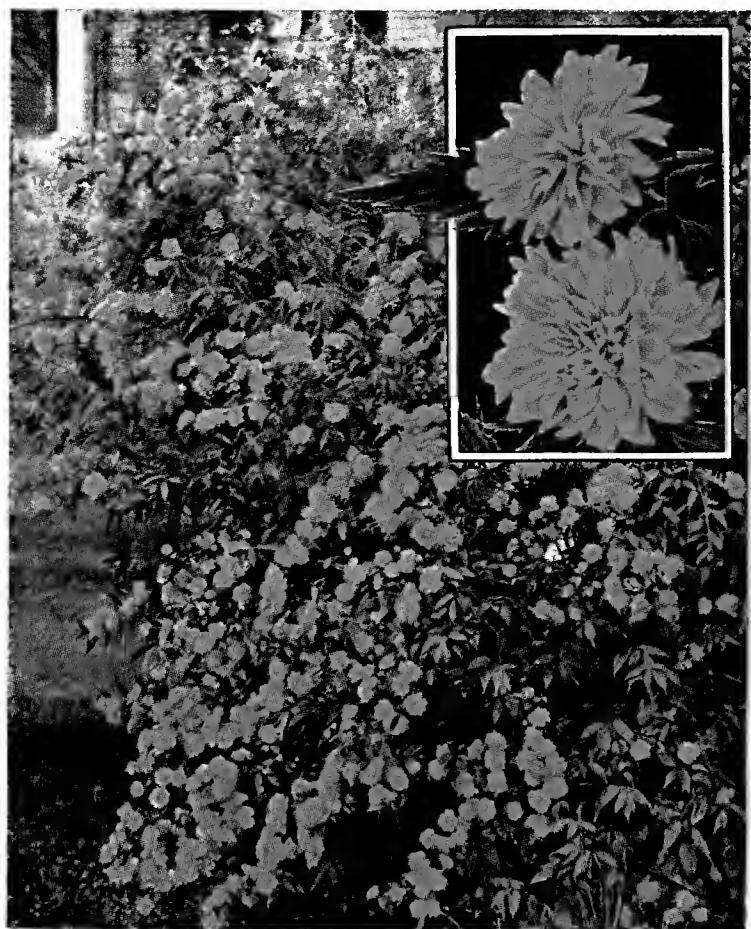

SPIREA BILLIARDI

Has dense spikes of rose pink flowers that crown sparsely twigged erect branches. For shrubby groups and border planting. Blooms July to September. Ultimate height 5 to 7 feet.

**WEIGELA EVA RATHKE (Red), AND
WEIGELA ROSEA (Pink)**

Trumpet-shaped, fragrant blossoms June and July. Every shrub planting should have a few of these remarkably hardy shrubs. Ultimate height 5 to 6 feet.

KERRIA JAPONICA (Double Globe Flower)

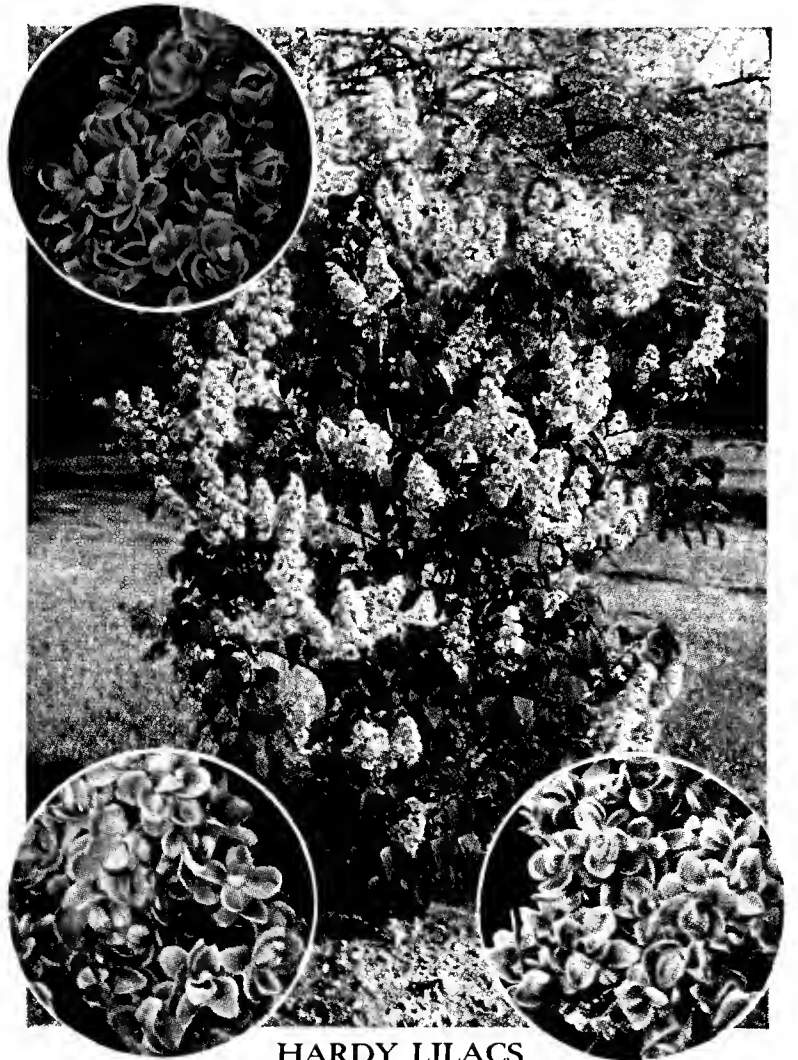

Its double yellow, roselike flowers are produced in profusion throughout the summer and again in the fall. Slender, green branches make a striking contrast against the snow during winter. Ultimate height 4 to 6 feet.

stone of Proper Home Landscaping

WEIGELA FLORIBUNDA

Crimson flowers, large and showy. A fine, compact growing bush, its color makes it valuable in a shrubbery planting. Grows 6 to 8 feet high.

HARDY LILACS

Blossom in June. Beautiful large trusses of fragrant blooms in delightful colors of pink, white, red or purple. Ultimate height 6 to 9 feet.

SPIREA VAN HOUTTE

Our gorgeous Spirea Van Houtte yields an abundance of early season flowers. Plant a group of these favorite shrubs to hide the bare foundation wall of the house, to provide screens for the garage, to hide an ugly buildings, to frame the rear garden, or for a lovely flowering hedge. Grows 4 to 5 feet in height.

Heavy Field-Grown Flowering Shrubs

Each a Joy to Behold

SPIREA THUNBERGI

Charming rosettes of pure white flowers in May. Beautiful, dense, fernlike foliage. Valuable in every shrub planting. Ultimate height 3 to 5 feet. Fine for rock gardens.

BEAUTY BUSH

This magnificent bush is a recent introduction from the Orient. A blaze of color during June and July with unusual foliage, it is truly named "Beauty Bush." Ultimate height 6 to 8 feet.

LILAC, MICHAEL BUCHNER

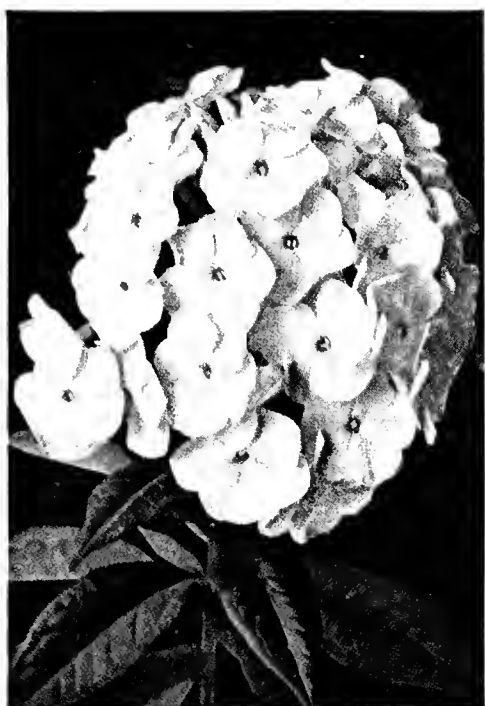

One of the new French Lilacs demanded by every flower lover because of its rich coloring and delightfully large clusters of flowers. Exquisitely fragrant.

HYDRANGEA P. G.

Deservedly one of the most popular shrubs. Blooms are white, changing to pink. Blossoms in August and September. Grows 3 to 4 feet high.

There is Always a Place for Choice Perennials

PHLOX, MISS LINGARD

Immense showy white blossoms in June and again in September. The finest snow-white Phlox.

*Plant our Hardy
Field-Grown Phlox
for Spectacular Beauty*

PHLOX, COMMANDER

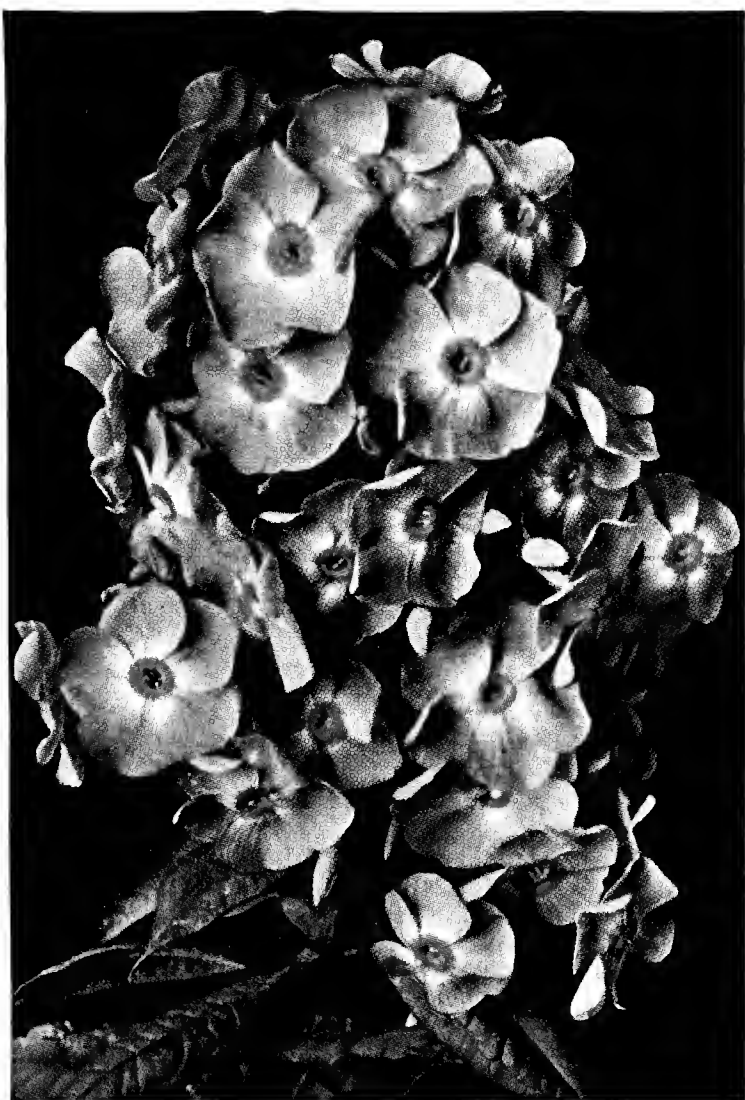

Brilliant deep crimson-red. One of the best.

PHLOX, JULES SANDEAU

Watermelon-pink. An abundant producer of large, showy blooms.

Space does not permit of illustrations showing immense actual sizes

PHLOX, LORD RALEIGH

A very unusual color. Especially free flowering. Makes lovely bouquets.

PHLOX, B. COMTE

Produces large, full heads of rich, satiny flowers. Very brilliant.

Plant our Hardy Field-Grown Perennials

and Enjoy the Best

Every home should have flowers of enduring beauty.

SPARK ACONITUM
(Monkshood)

Lovely autumn-flowering. Does well in shade. Unusual, interesting.

ADAM'S NEEDLE

Flowers very showy, add a tropical touch to the garden; grows from 3 to 6 feet high. Blooms June and July. Foliage evergreen all winter.

PYRETHRUM - Marguerite Daisy

Showy flowers throughout the summer. Practically all colors. Combined with elegant, finely cut foliage, makes most attractive bouquets.

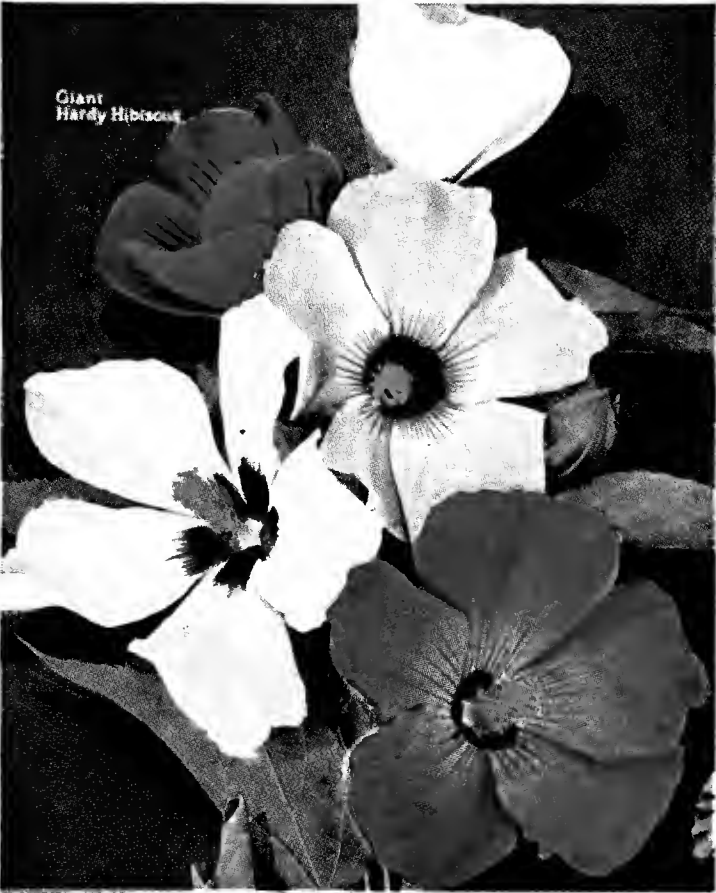

You too, can have this beautiful outdoor living room. It can be adapted to home grounds of almost any size or shape. This attractive planting consists mainly of our Blue Ribbon Flowering Shrub Group (see pages 8-9), Blue Ribbon Perennial Group (pages 16-17), and our Gold Medal Rose Group (pages 42-43).

Grow Your Own Flowers

A Most Interesting Hobby

Perennials can be planted
anywhere

GIANT MALLOW

Known as the "Marvel Flower" because of its abundance of extremely large, brilliantly colored flowers. Blooms are rich red, pink and white and come in July and August.

VANDERBILT DELPHINIUMS

Beautiful shades of blue, some rich gentian hues, others deep sapphire and royal purple shades. Blooms in clusters the entire length of its 3- to 4-foot spikes.

DIANTHUS - DOUBLE SWEET WILLIAM

Fragrant, free blooming and hardy. A lovely addition to the perennial garden and the rock garden.

HELIANTHUS

Fine for cut flowers, its showy attractive blossoms make it a highlight in your garden throughout the summer.

BLUE RIBBON PERENNIAL

STOKESIA - Cornflower Aster

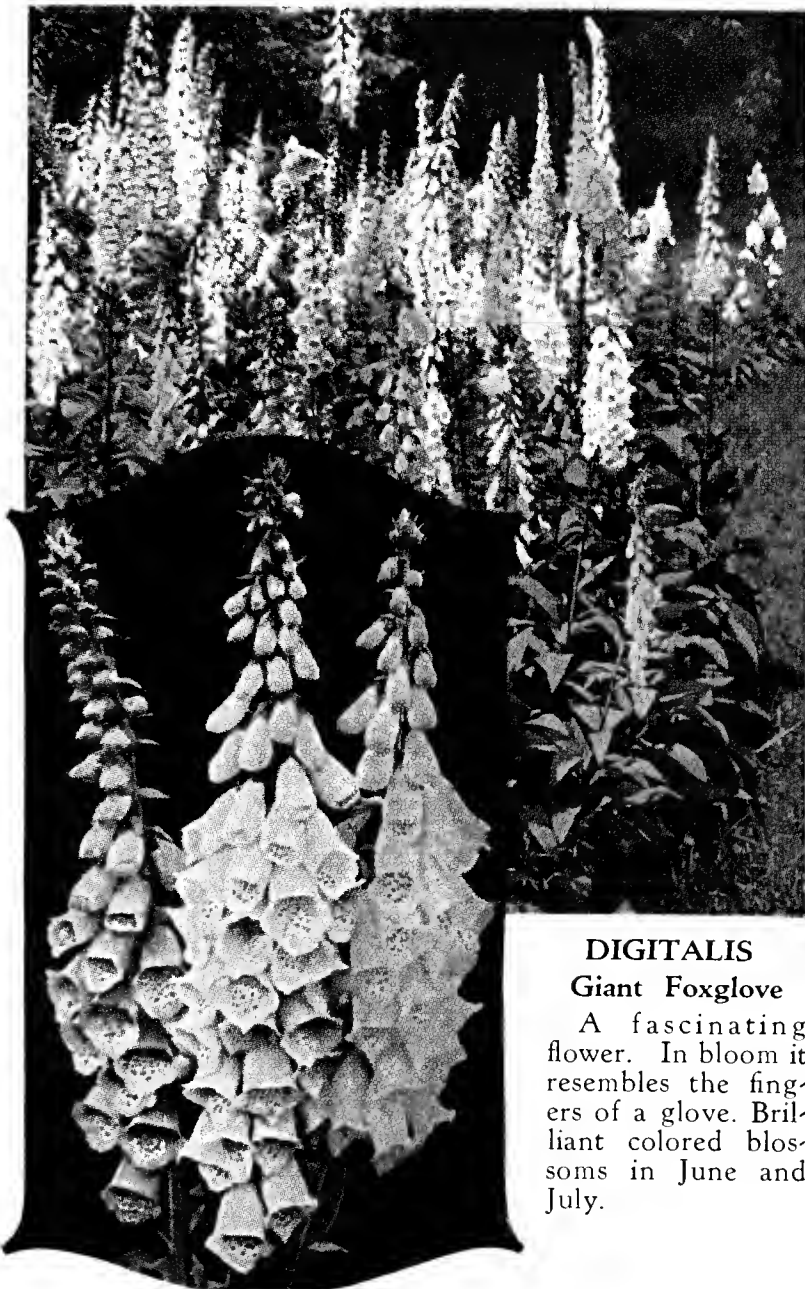

A very handsome purple perennial. Fine for cutting. Blooms from July until October.

Perennial
Group
listed on
these two
pages.

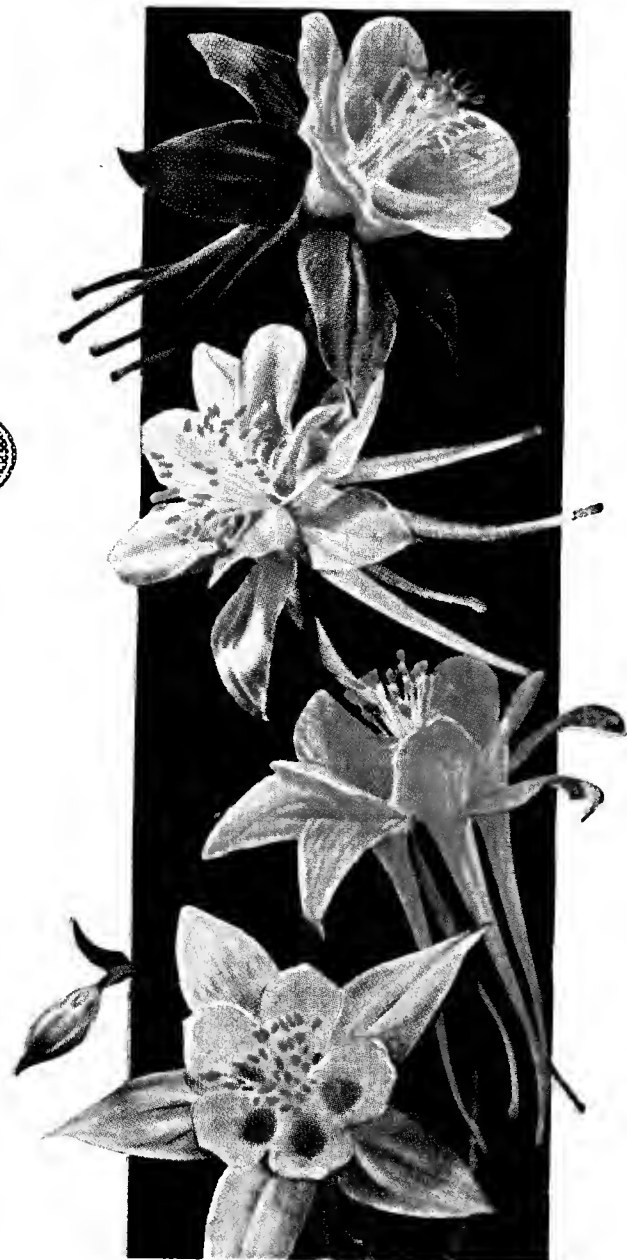

**BLUE BONNET
Pincushion Flower**

Large, showy blue flowers of charming distinction borne on 24-inch stems from June until fall. Makes gorgeous bouquets. Fine for rock gardens.

**DIGITALIS
Giant Foxglove**

A fascinating flower. In bloom it resembles the fingers of a glove. Brilliant colored blossoms in June and July.

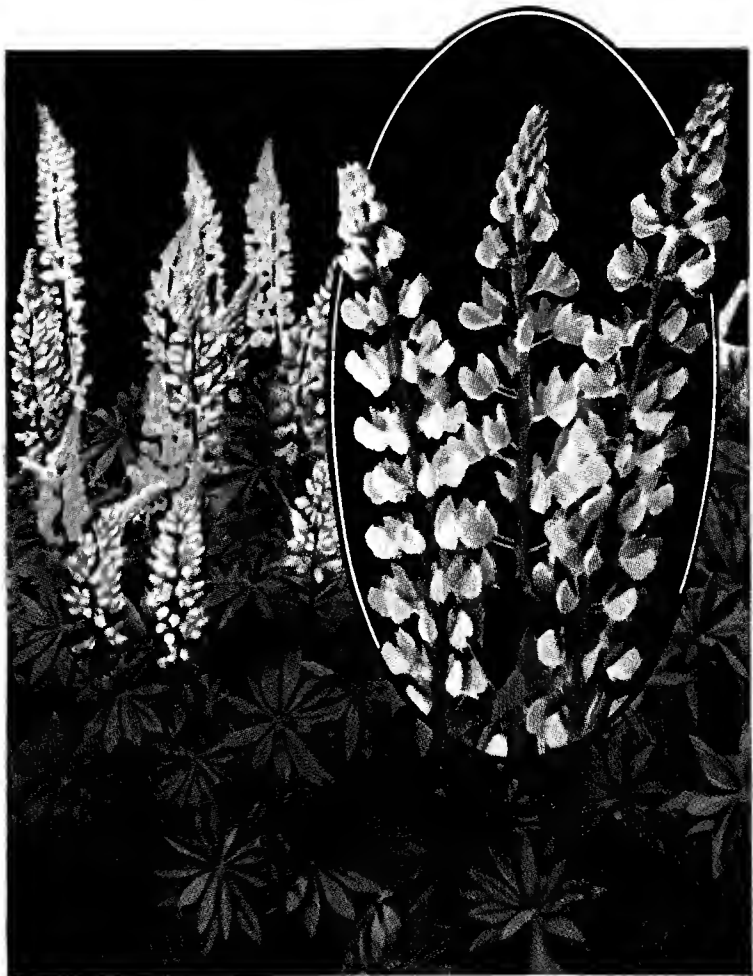

AQUILEGIA - Columbine

Very hardy. Dainty flowers look like little butterflies. Blooms May and June.

GROUP—Selected for Permanent Beauty

Enjoy flowers all summer long.
Plant this selected group of eight
shown on these two pages.

SWEET SCENTED LUPINUS

Stately and beautiful 3- to 4-foot spikes of many colored sweet-pea-shaped flowers. Starts blooming in May, continuing through July. Used for rock gardens.

GIANT HYBRID GAILLARDIA

A profuse bloomer from June until frost. Especially hardy. Lovely shades of orange, yellow and red.

FLAME FLOWER - Tritoma

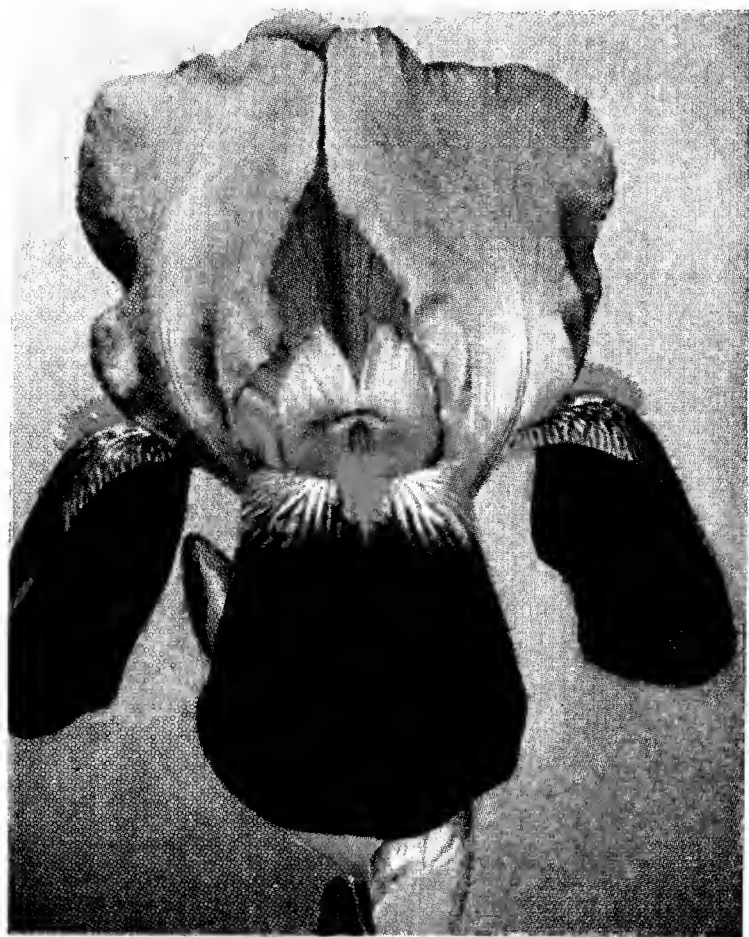

Something different. Found in South Africa. Flowers are a dazzling flame color; fine for cutting. Blooms in late summer and autumn.

WHIRLWIND ANEMONE - Windflower

A hardy, rapid grower and profuse bloomer. Blossom period extends from Labor Day until late November. Furnishes an abundance of cut flowers as well as a brilliant display in the garden

Every Garden Should Have These Gorgeous Flowers

IRIS AMBASSADOR

A new pedigreed sort. A fascinating velvety smoky color with falls of purple-maroon. Simply magnificent.

ORIENTAL POPPY

Blooms June and July. Flowers extremely large and showy. Especially beautiful when planted along with peonies. Adds an unusual note of color to your garden.

Crusader.

IRIS

Honorabilis.

Two unusual varieties. Blossoms that are marvelous in coloring and exquisitely dainty.

GYPSOPHILA (Baby's Breath)

Called the bouquet plant because of its numerous feathery branchlets of starry flowers borne in profusion on fine firm threadlike stems. Blooms July to September. Very fine for rock gardens.

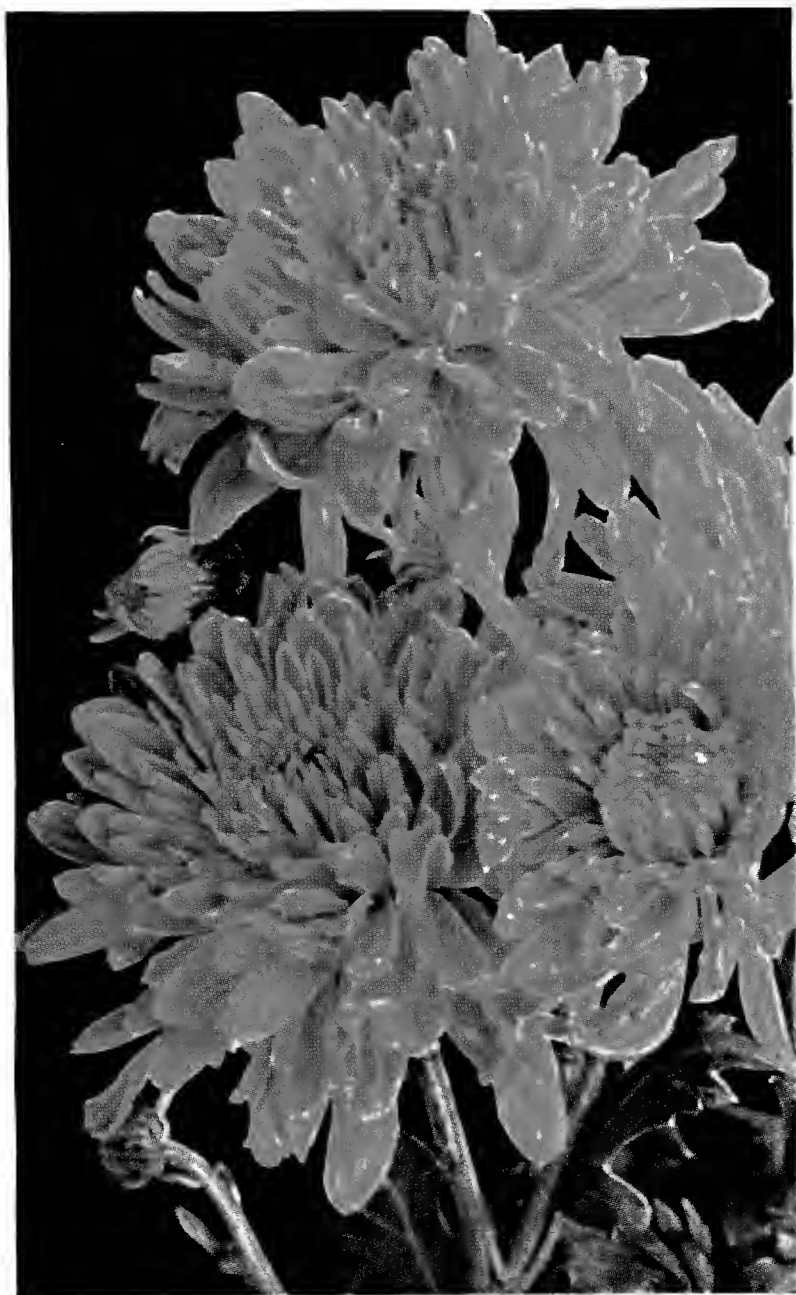

Plant Our Hardy Chrysanthemums

The glory of the garden throughout the fall. Flowers beyond the frost. With its gorgeous blooms of charming colors, it makes a brilliant display in the garden long after other flowers are gone.

CHRYSANTHEMUM, OCTOBER DAWN

Lovely daybreak pink blooms of excellent size produced in heavy branched clusters.

CHRYSANTHEMUM, GLORY OF SEVEN OAKS

One of the finest early large flowering varieties of deep golden hue.

CHRYSANTHEMUM, AUTUMN GLOW

Rosy crimson blossoms over-shot with flashes of scarlet. A very showy sort both in the garden and in bouquets.

Thrifty, Hardy Perennials

2 Year, Field-Grown

DICENTRA (Spectacular Bleeding Heart)

Has finely cut fernlike foliage and shapely, large, graceful, heart-shaped flowers. Does equally well in sun or shade.

GARDEN CARNATION

Lovely fragrant flowers throughout the summer. Very good for rock gardens. We offer pink, red and white.

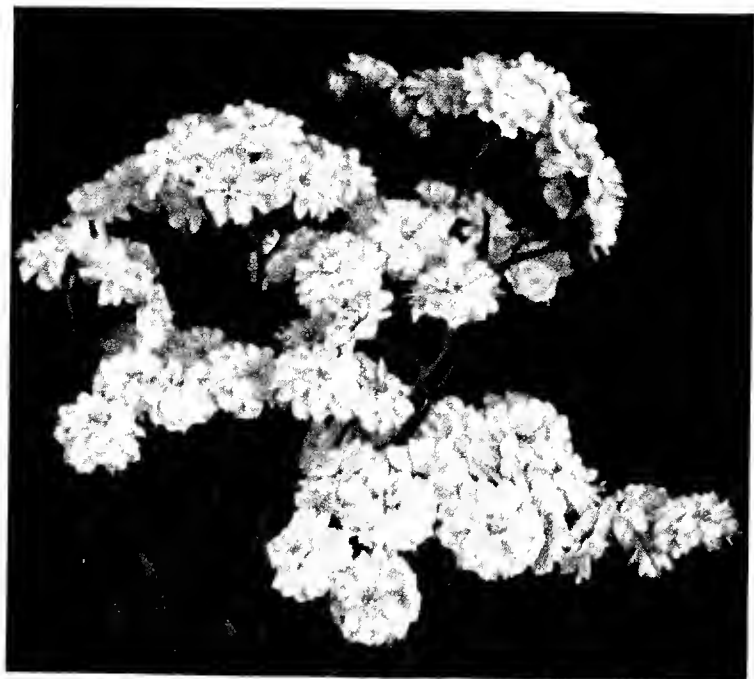

DOUBLE HOLLYHOCK

A Chinese variety not to be confused with old-fashioned tall growing single sorts. Blooms are very double and altogether charming.

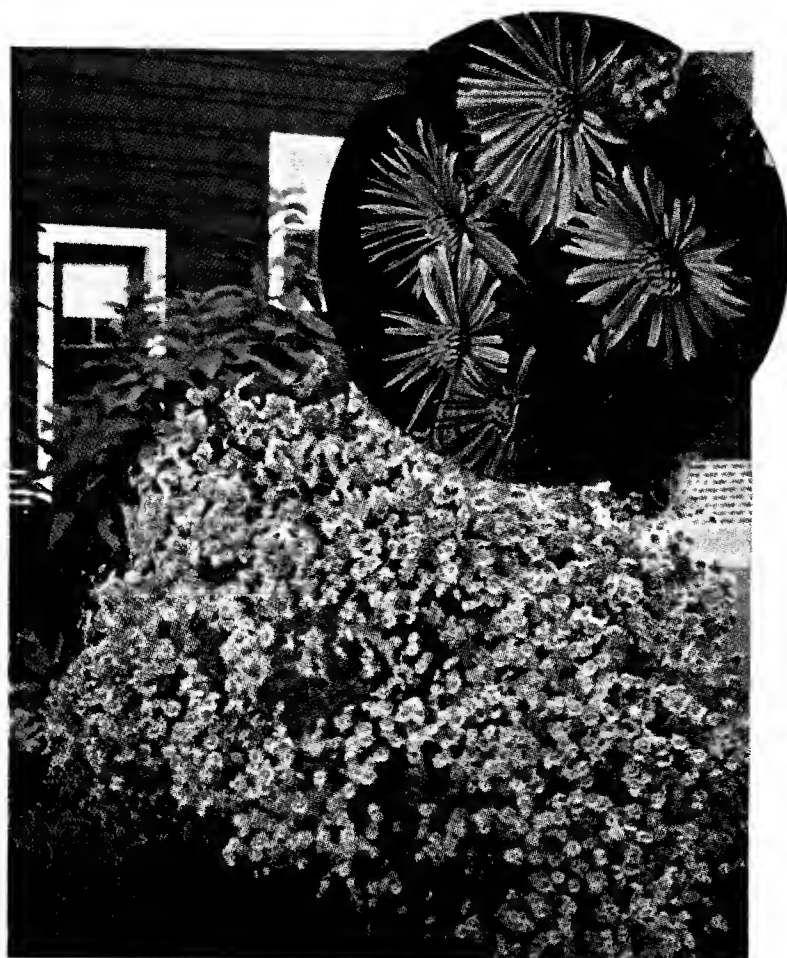

HARDY ALPINE PRIMROSE

Ideal for border planting, showy yellow blooms in April. Grows 6 to 12 inches high. Fine for rock gardens.

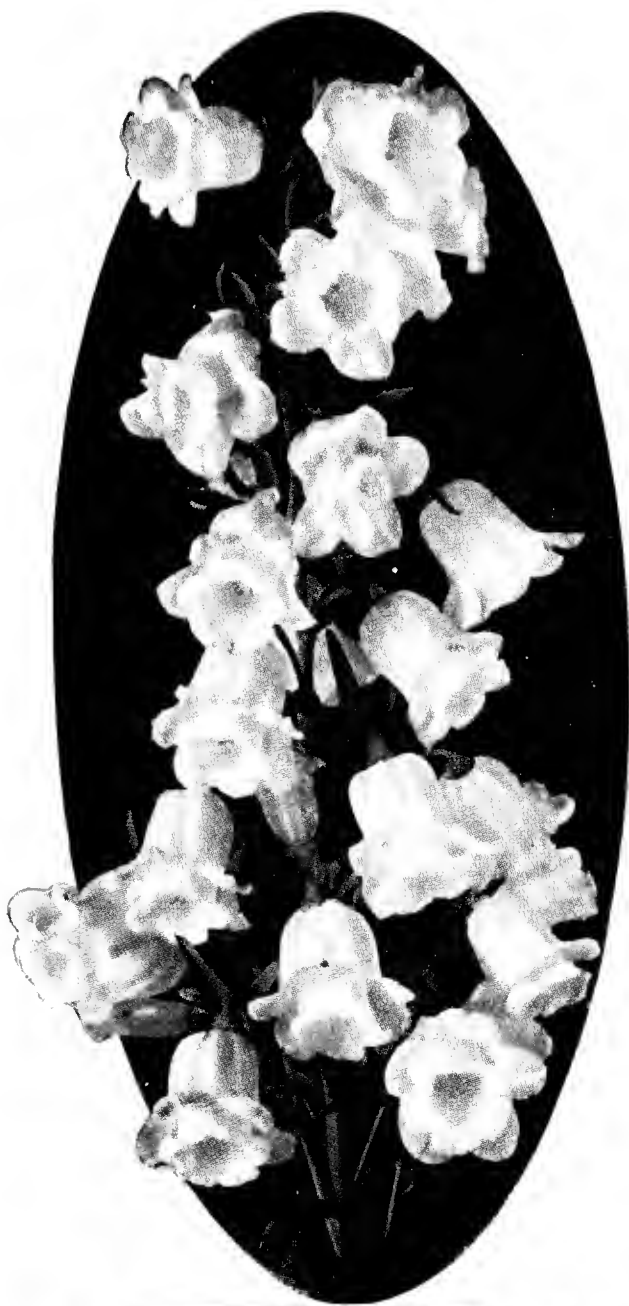

PEARL FLOWER (Achillea)

Its dainty blossoms which come in clusters make excellent bouquets. Blooms throughout the summer. Grows 1 to 2 feet high.

MICHAELMAS DAISY

Lovely autumn flowering blooms of royal purple hue, very free flowering. Blossoms till snowfall. Used for rock gardens.

*Plant in

and in
rock
gardens.*

**CANTERBURY BELL
(Bellflower).**

Very imposing spikes of
large bell-like flowers. Ex-
tremely showy.

RUDBECKIA (Coneflower)

Fine for covering bare and exposed spots
in the garden. Makes splendid cut flowers.
Blooms June to September.

VERONICA (Royal Bluebird Flower)

Showy indigo blue flowers borne on
full terminal spikes. Very striking in the
garden because of its unusual color.

**BLAZING STAR
(Gay Feather)**

Gorgeous purple flow-
ers borne on stiff stems
from midsummer until late
fall. Fine for rock gardens.
Can be dried for winter.

PHYSALIS (Lantern Plant)

A remarkable resemblance both in
shape and color to the Chinese Lan-
tern gives this unusual plant its name.
Excellent for winter bouquets.

Build a ROCK GARDEN

A healthful and enjoyable hobby the whole family will enjoy. Use our vigorous plants. We offer unusual selected varieties of proven merit.

HUPEHENSIS (Dwarf Anemone)

Blooms from early August until late fall. Produces an abundance of large showy blossoms.

Dwarf growing selections that produce a riot of color from early spring until snowfall.

RANUNCULUS (Double Buttercup)

Attractive golden yellow flowers of easy culture. Blooms all summer.

HEUCHERA (Coralbells)

A graceful plant that yields an abundance of vivid coral-colored bell-shaped flowers.

Plan your rock garden now. See price list page 26 for bargain group price on the 12 Blue Ribbon Rock Garden Plants shown on these two pages.

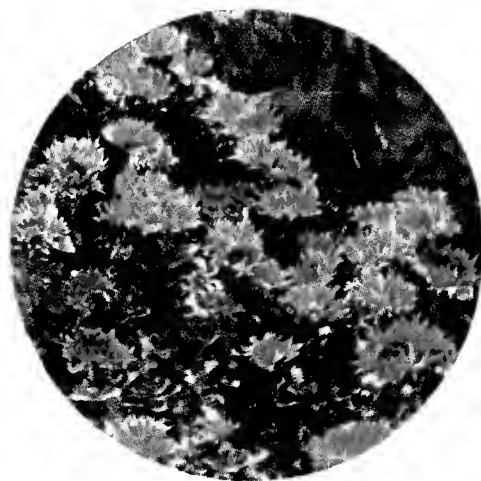

DWARF PHLOX SUBULATA
(Mountain Pinks)

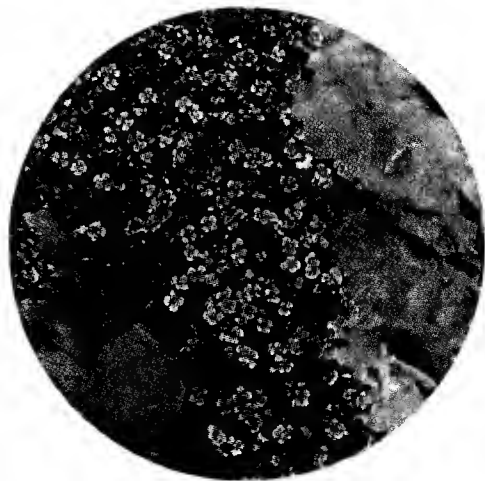

Blooms in masses in early spring. Is a creeper and literally carpets the ground.

ASTILBE, QUEEN ALEXANDRA
Very lovely flowers borne on spikes 18 inches high, coming in June.

SEDUM SIEBOLDI (Stonecrop)
Attractive pink flowers, very hardy. Blooms in July and August.

PURPLE ROCK CRESS

Bright attractive blossoms come freely in the spring, continuing until July. Evergreen foliage.

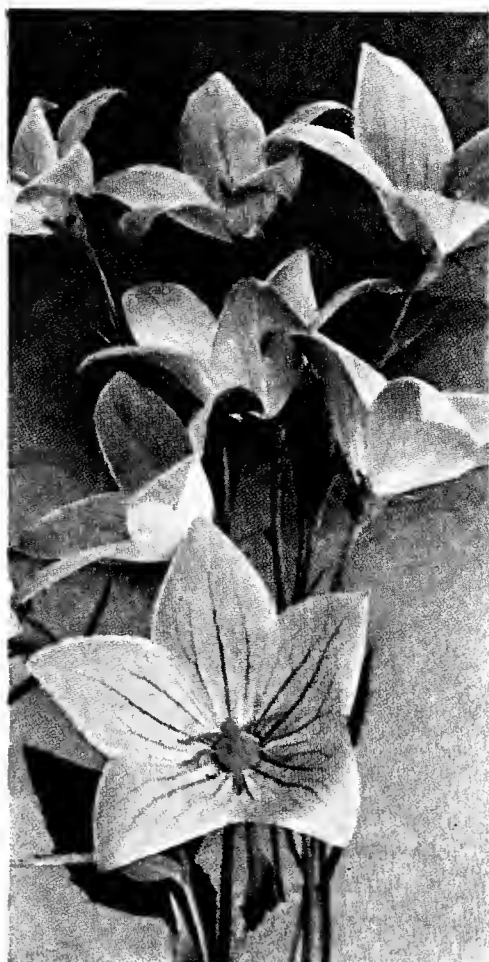

SEMPERVIVUM

Plants are hardy and succulent with rosette-like pointed leaves. Fine for filling crevices in rocks.

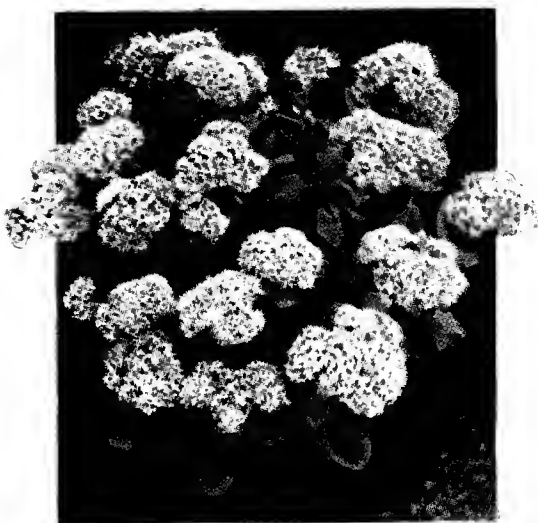

NEPETA (Ground Ivy)

Especially suited for massing in the rock garden. Its foliage is aromatic, silvery gray in color and highlighted by hundreds of dainty blue flowers.

BALLOON FLOWER

Very hardy. Bell-shaped flowers all summer long.

SEDUM SPECTABILE
BRILLIANT

One of the prettiest of rock garden plants because of its broad light green foliage and handsome showy rose-colored flowers.

CAMPANULA CARPATICA

Unsurpassed for the rock garden. Heavenly blue flowers. Blooms continuously from June to November.

Rock Garden Beauties

let-maroons. Very choice
flowers, borne on strong,
stiff stems, are very lasting.

**DAHLIA,
GOLDEN WEST**

A marvel of beauty and
a joy to behold in your
garden at a time when lit-
tle else is in bloom.

Plant Our Hardy Lilies

REGAL LILY

Especially hardy, may be grown anywhere. Flowers delightfully perfumed, reminding one of the Jasmine. Very good for rock gardens. For fall or spring planting.

LILY MADONNA OR ANNUNCIATION LILY

Can be grown easily in your own garden. Very charming. Fall planting only.

LILY AURATUM (Gold Banded Lily)

Its extremely large, graceful, fragrant flowers are a delicate ivory, white striped through the center with gold, and high-lighted with crimson. Spring planting only.

LILY CAROLINIANA

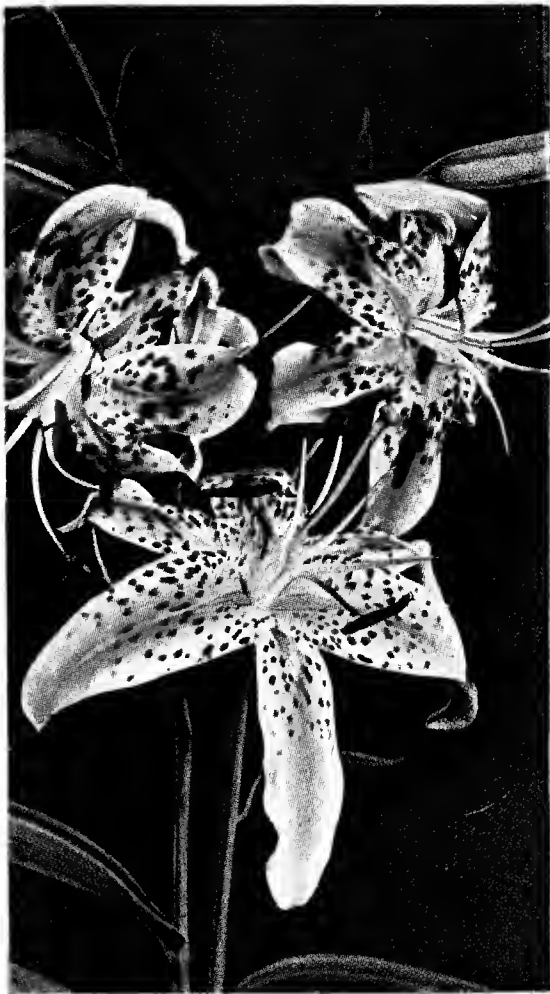

An extremely choice Lily, very hardy, blooming in July and August. Frequently used for rock gardens. Fall and spring planting.

For a Riot of Gorgeous Colors

**LILY,
SCARLET AMERICAN**

A native Lily with deep red flowers. One of the finest for planting in shady places. Spring or fall planting.

LILY RUBRUM, CRIMSON LILY

Fragrant flowers with an attractive green stripe at the base and unusual red anthers. Spring planting only.

Japan Iris

Japan Iris is considered one of the most magnificent of imported garden flowers. Known as the outdoor garden orchid.

We illustrate the Royal Purple and the Olympia varieties above. Both are rare and very choice.

Gorgeous New Pedigreed Peonies

*Illustrations are Only 1-3 to 1-2
Actual Sizes.*

Finest Quality Bulbs

For Fall
Planting

PLUCKY CROCUS

Bright and cheerful little cup-shaped flowers that appear as soon as the ground is free from frost. Purple, Blue, Variegated, White and Yellow. For fall planting only.

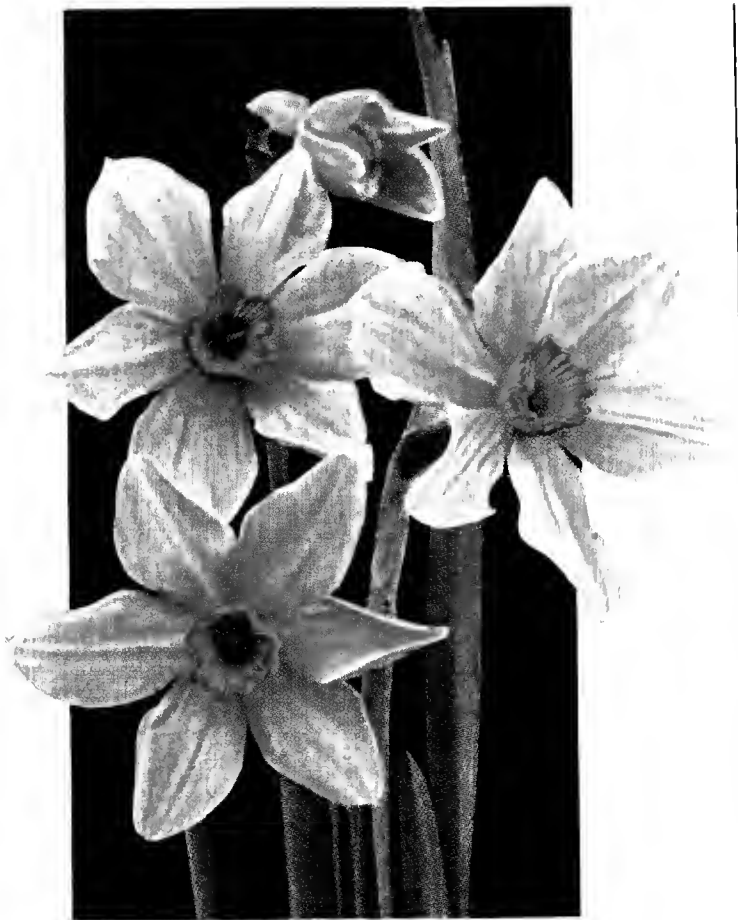

SWEET SCENTED HYACINTHS

Beautiful, extremely large, especially fragrant flowers from each bulb. For fall planting only.

We offer **Prince Henry**, yellow; **Innocence**, white; **Scarlet Wonder**, red; **Queen of the Blues**, blue; **King of the Violets**, purple; and **Lady Derby**, pink.

Our over-sized bulbs are all first quality and not to be confused with those ordinarily offered. They bloom in the house in the winter or in the garden in the early spring, and always charm with their glorious colors and fragrance. Widely used for rock gardens.

NARCISSUS, CONSPICUUS

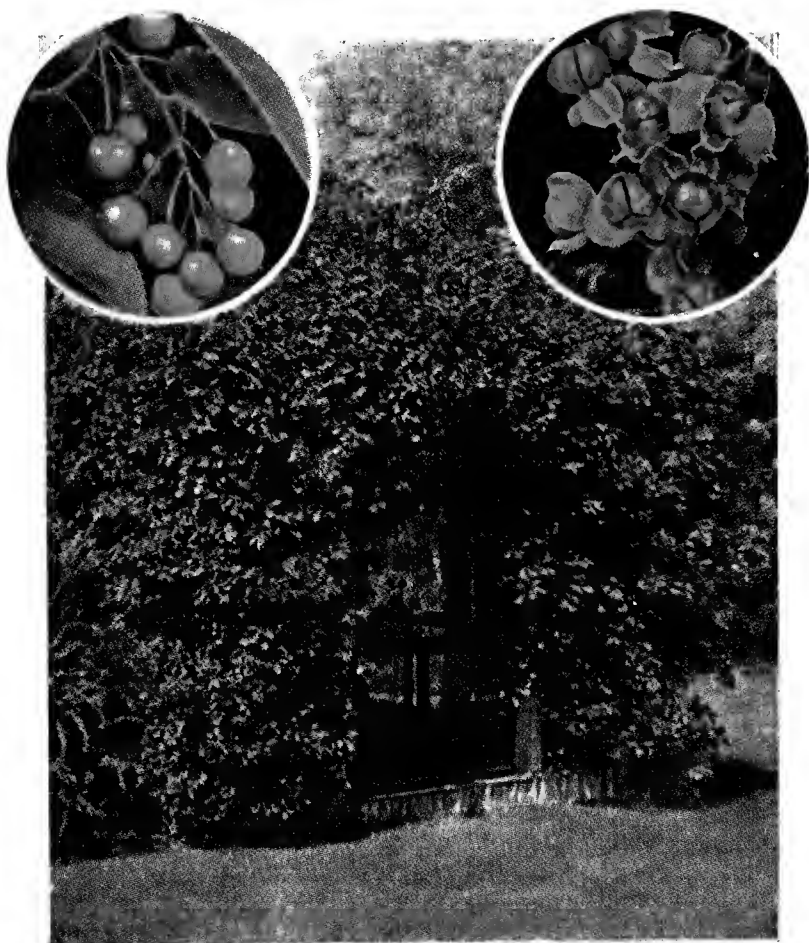

An exceptionally fine, choice, hardy garden sort. Distinguished by its red inner cup. Used for rock gardens. Fall planting only.

NARCISSUS, TRUMPET MAJOR

Truly a garden aristocrat with its golden trumpet. Adds a lovely touch to the rock garden. For fall planting only.

Hardy Field-Grown VINES

BITTERSWEET VINE (*Celastrus Scandens*)

A native vine of rapid growth especially valuable for its brilliant scarlet berries which are highly prized for winter bouquets.

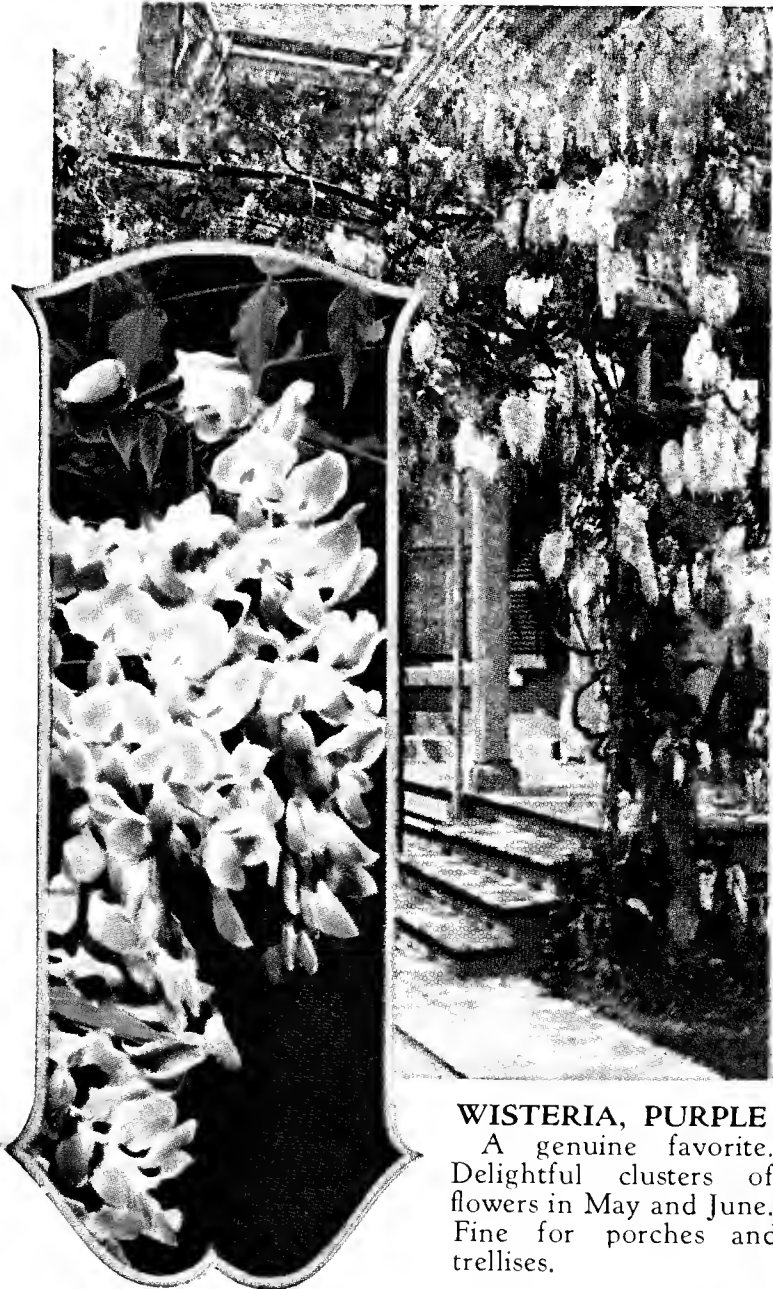

MATRIMONY VINE (*Lycium*)

Especially recommended for banks and retainer walls, also to cover slopes because of its vigorous growth and deep growing, spreading roots.

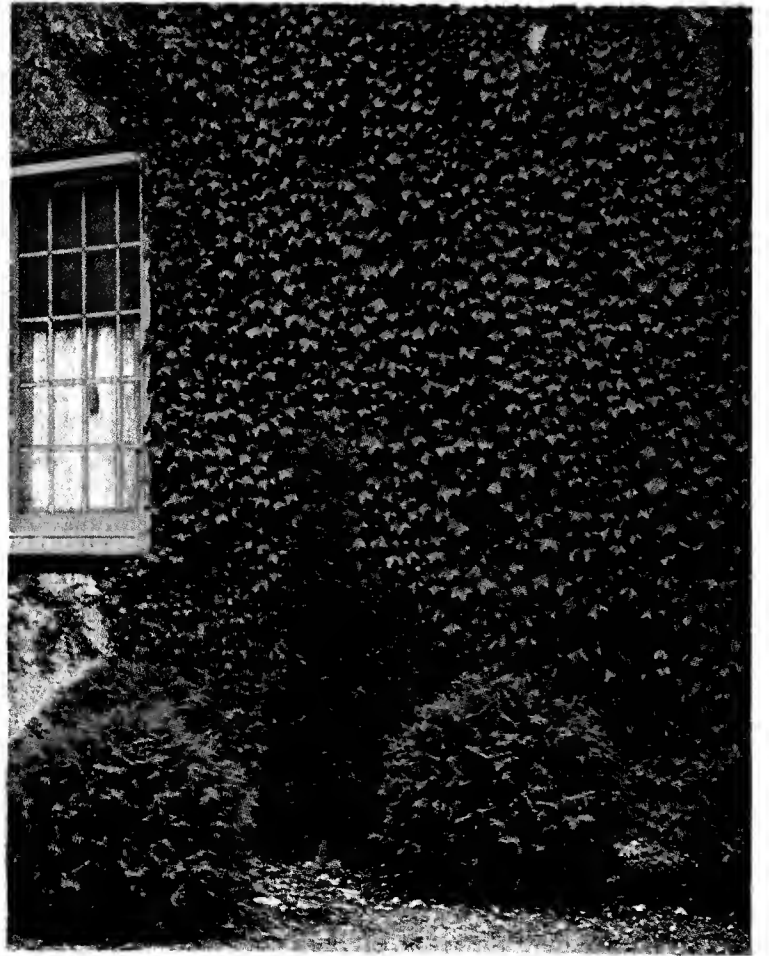

Plant Our Fast Growing Vines for Shade and Beauty

Often called the frills on Mother Nature's dress, our fine ornamental Vines are a necessity of good landscaping

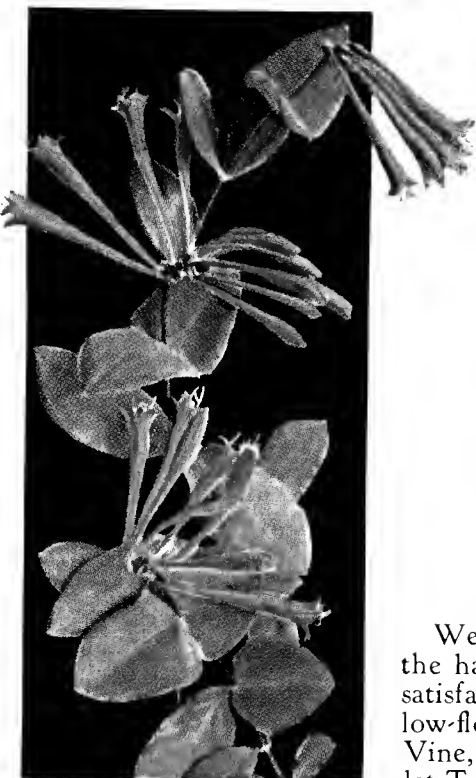

WISTERIA, PURPLE

A genuine favorite. Delightful clusters of flowers in May and June. Fine for porches and trellises.

BOSTON IVY

Attractive, glossy leaves that turn to beautiful brilliant orange-scarlet in the fall. Grows rapidly. Clings to stone, concrete or brick.

Scarlet Trumpet Honeysuckle.

We present two varieties of the hardy, rapid growing, always satisfactory Honeysuckle, the yellow-flowered Hall's Honeysuckle Vine, and the red-flowered Scarlet Trumpet Vine. Both are suitable for porches, trellises and as a ground cover.

Hall's Honeysuckle.

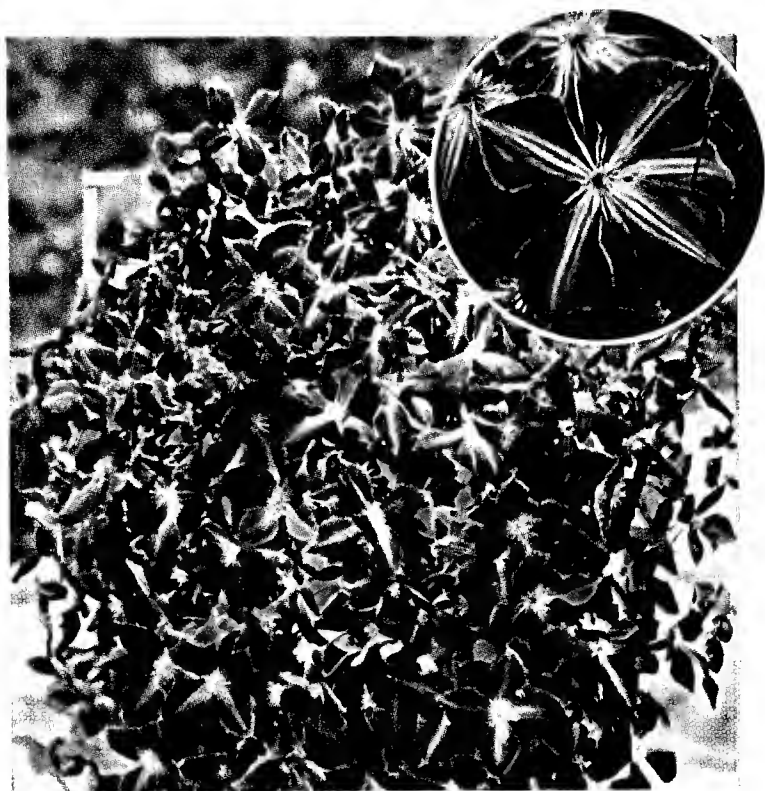

CLEMATIS PANICULATA

A gorgeous climbing vine, white, starlike flowers in profusion in September and October. Fragrance alluring and penetrating. Excellent for porches, pergolas, trellises, etc.

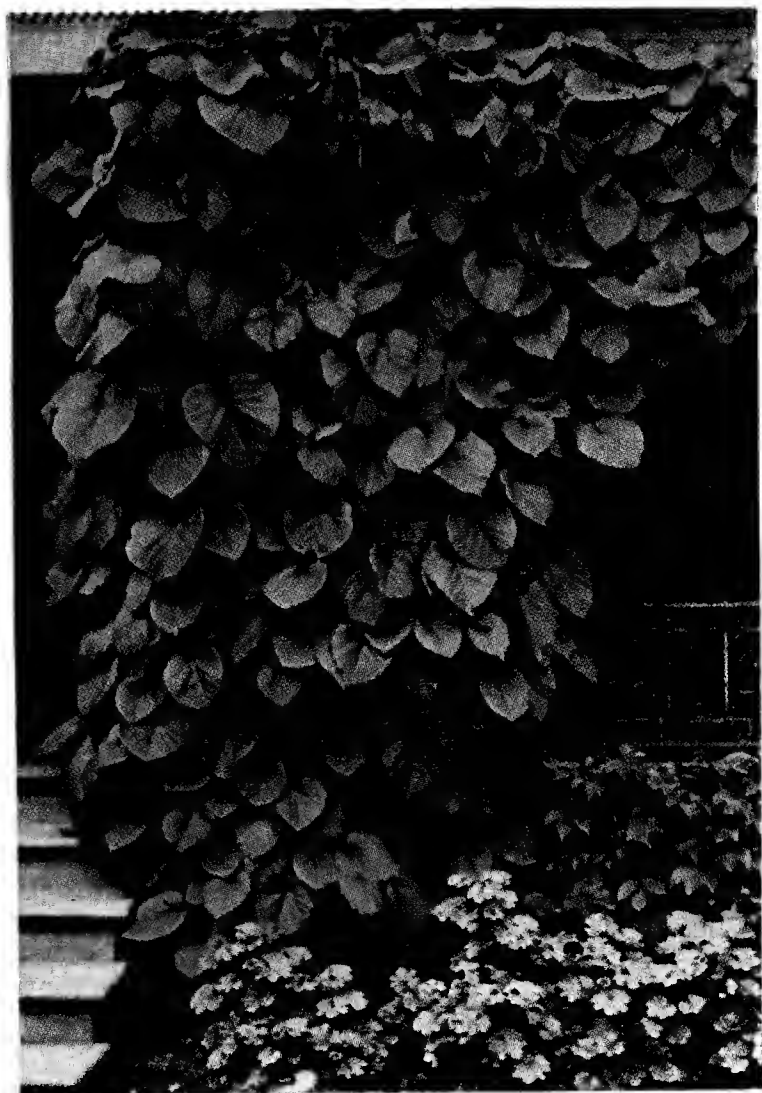

SILVER LACE VINE

New exceptionally rapid growing vine for porches and trellises. In bloom from late summer until frost, having a gorgeous feathery spray of white flowers.

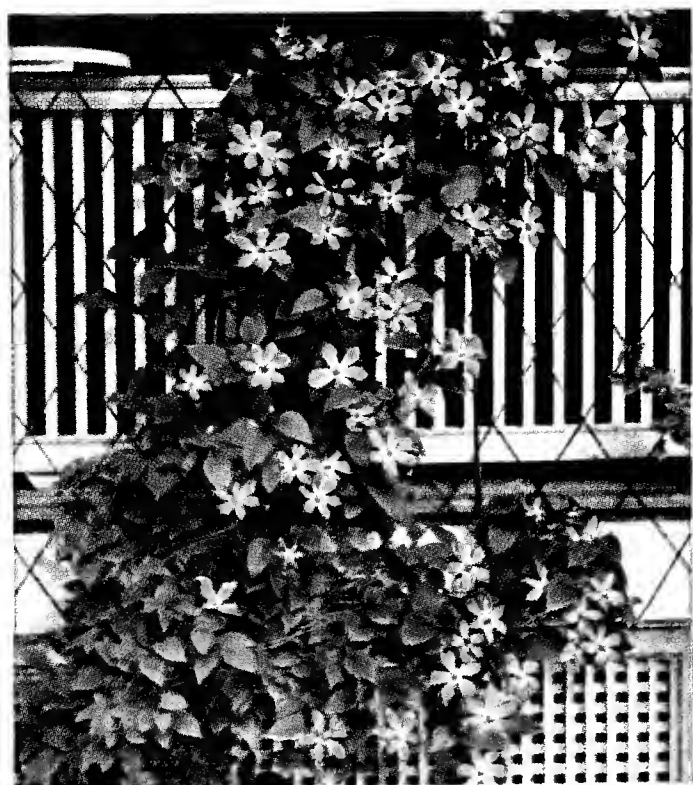

CLEMATIS JACKMANI

Large, beautiful flowers of brilliant royal purple from July to September. Rapid grower.

DUTCHMAN'S PIPE

Immense, heart-shaped, dense green leaves, finest of all for shade. A magnificent, clean, fast growing favorite where shade is needed.

CLEMATIS, MME. EDOUARD ANDRE

Very large, attractive flowers of cardinal-red. Is a persistent bloomer from July to September.

Climbing Roses

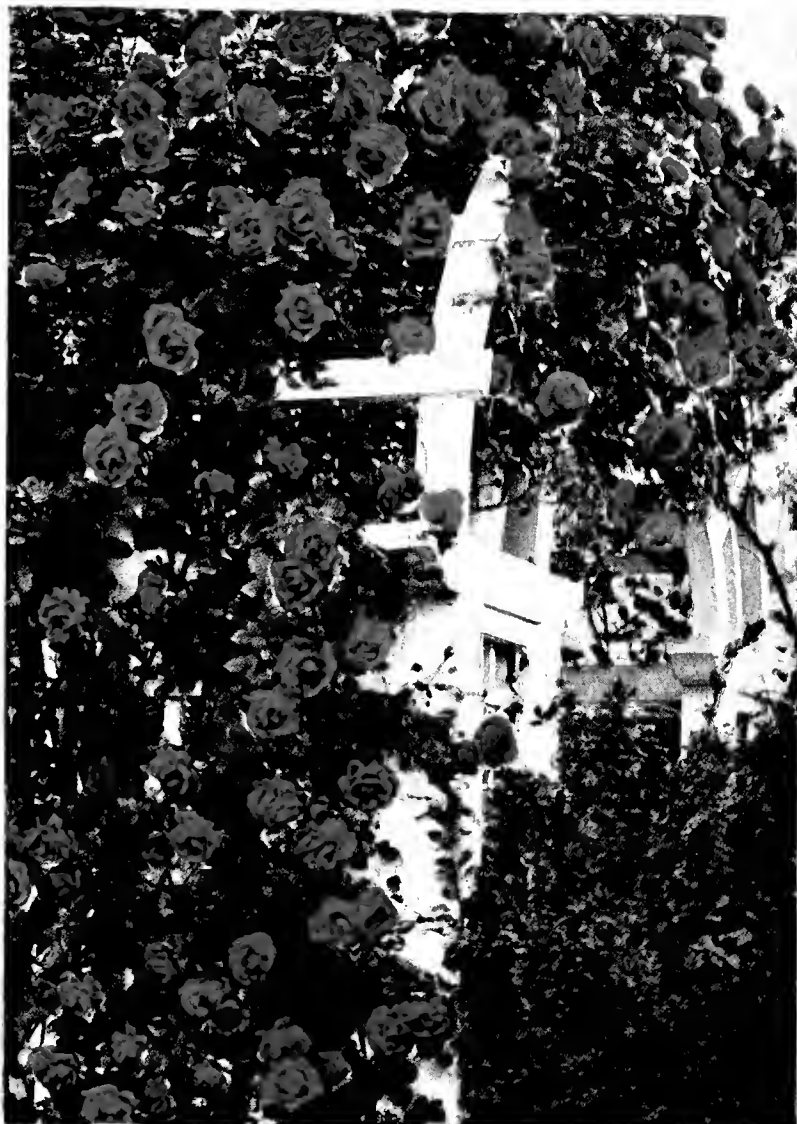

for Trellis, Porch and Arbor

We offer new, large flowering varieties that are sure to please you. Strong, vigorous, heavy rooted, field-grown.

GARDENIA

A beautiful yellow climbing Rose that dominates the lighter colored climbers. Makes a glorious bouquet when cut.

MARY WALLACE

The outstanding large-flowered pink climber; brilliant and satisfactory; growth is enormous and rapid. The long-stemmed blooms are beautiful for cut flowers.

CLIMBING AMERICAN BEAUTY

Yielding full size blossoms of a brilliant red color; it is truly named "American Beauty." Fine for cut flowers.

Large Flowering Climbing Roses

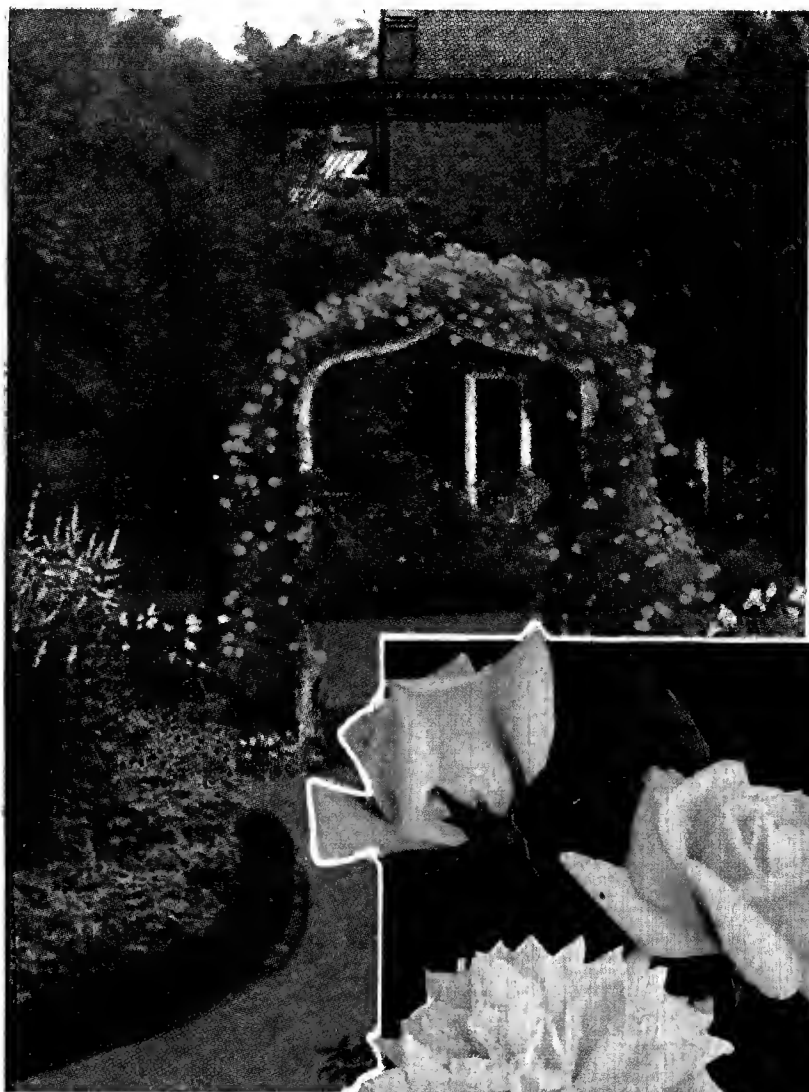

*Ready to
Bloom
the First
Season*

PAUL'S SCARLET

A glorified scarlet-red climbing Rose that bears a multitude of double, fragrant flowers. Has a tendency to bloom again in the fall.

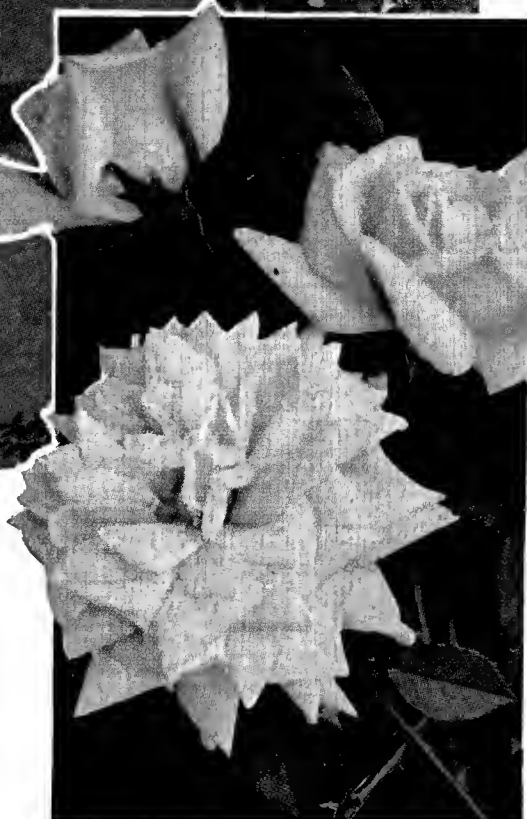

Paul's Scarlet Climber.

PRIMROSE

A lovely, new, hardy, double-flowered, golden yellow climber. Be the first in your section to have this gorgeous new queen of the climbers. Excellent for bouquets.

SPANISH BEAUTY

A new, hardy, vigorous climber. Buds crimson, opening to very rich, double, perfumed, pink flowers suitable for cutting.

BLAZE

The sensational
new everblooming
Climbing Rose.

First everblooming
climber.

It inherits the
pleasing color
of Paul's Scarlet
and the
exceptional
everblooming
habit of
Gruss an Teplitz.

It is very hardy
and vigorous.

Seldom out of

HOOVER

A new duotone novelty that is delighting Rose lovers wherever introduced.

TEMPLAR

A continuous heavy bloomer from June until frost. Its color is an intense, dazzling, cardinal fiery crimson.

DAME EDITH HELEN

Exquisite shell-pink. One of the largest and most perfect of the newer Roses. An abundant bloomer saturated with a delicate, unusual perfume.

LADY MARGARET STEWART

This glorious two-toned Rose is a prize winner wherever exhibited. Richly perfumed. Be the first in your section to plant this new glory of the Rose family.

Rose Group

MRS. E. P. THOM

Long buds, marked with splashes of crimson unfurling into a clear golden yellow; adds a dazzling color to the garden. Very vigorous and fragrant. Blooms continuously.

REV. F. PAGE-ROBERTS

One of the best loved of all Roses because of its glorious orange-yellow, non-fading color. Lovely in bud, gorgeous in full bloom.

E. G. HILL

A brilliant scarlet-crimson of exquisite size and fragrance. The last word in glorious red Roses. Blooms continually from June till frost.

TALISMAN

An exceptionally free blooming, two-color Rose—a vivid red and gold combination. Makes lovely bouquets.

These Guaranteed-to-

*All Our Roses
Have Bloomed
at the
Nursery Farms*

SUNBURST

Lovely, long buds, opening to a brilliant golden orange Rose. Very hardy and a prolific bloomer.

GRUSS AN TEPLITZ

Here is a fine deep red rose that has stood the test of time. It is remarkably free blooming through the entire summer until snowfall which endears it to every Rose enthusiast.

KILLARNEY WHITE

A favorite that has stood the test. Its popularity will continue to grow for years to come because of its pure white color, fine, shapely buds and delicate fragrance

KILLARNEY BRILLIANT

A gorgeous, very double, brilliant pink variety shaded darker on the outside of the petals. A very striking Rose.

WILLOWMERE

Magnificent, brilliant pink flowers suffused with gold. Will become a popular favorite in every garden.

Bloom Roses are all Noted Beauties

Grow Your own Roses —A Truly Delightful Pastime

Our big, heavy, thrifty Rose bushes bloom the first season, and are conceded to be the finest.

LOS ANGELES

Produces a continuous succession of long-stemmed, pointed flowers of salmon-flesh color shot with apricot-yellow.

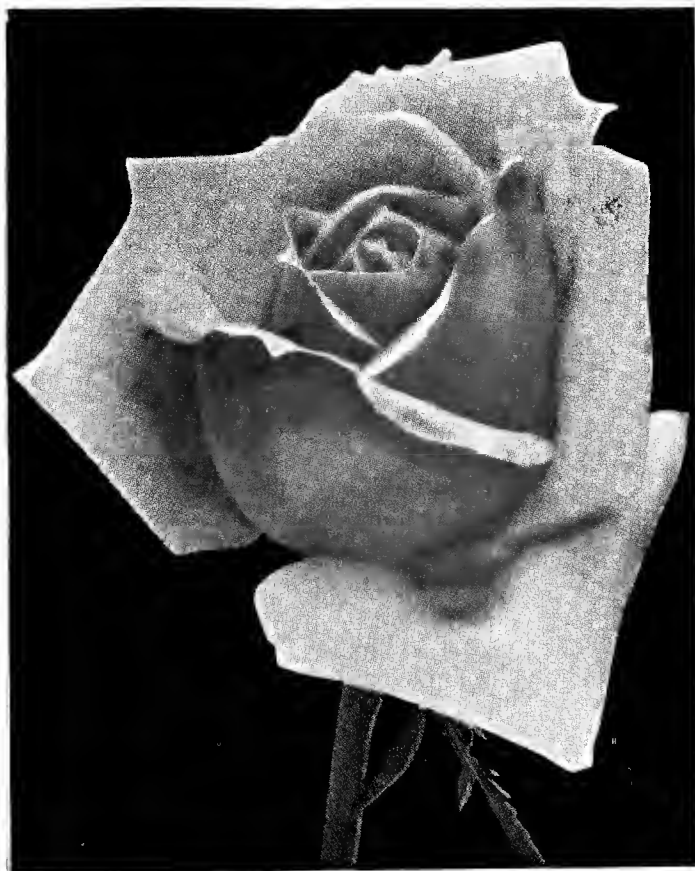

CHARLES K. DOUGLAS

A flaming scarlet, flushed with velvety crimson. A dominating specimen you will enjoy. Fragrant.

GOLDEN PERNET

A very large, fragrant, golden yellow named after the famous French Rosarian, who has called it his masterpiece.

BRIARCLIFF

One of the best liked of all Roses because of its luminous shell-pink shading, its exquisite fragrance and finely shaped buds. A remarkable bloomer.

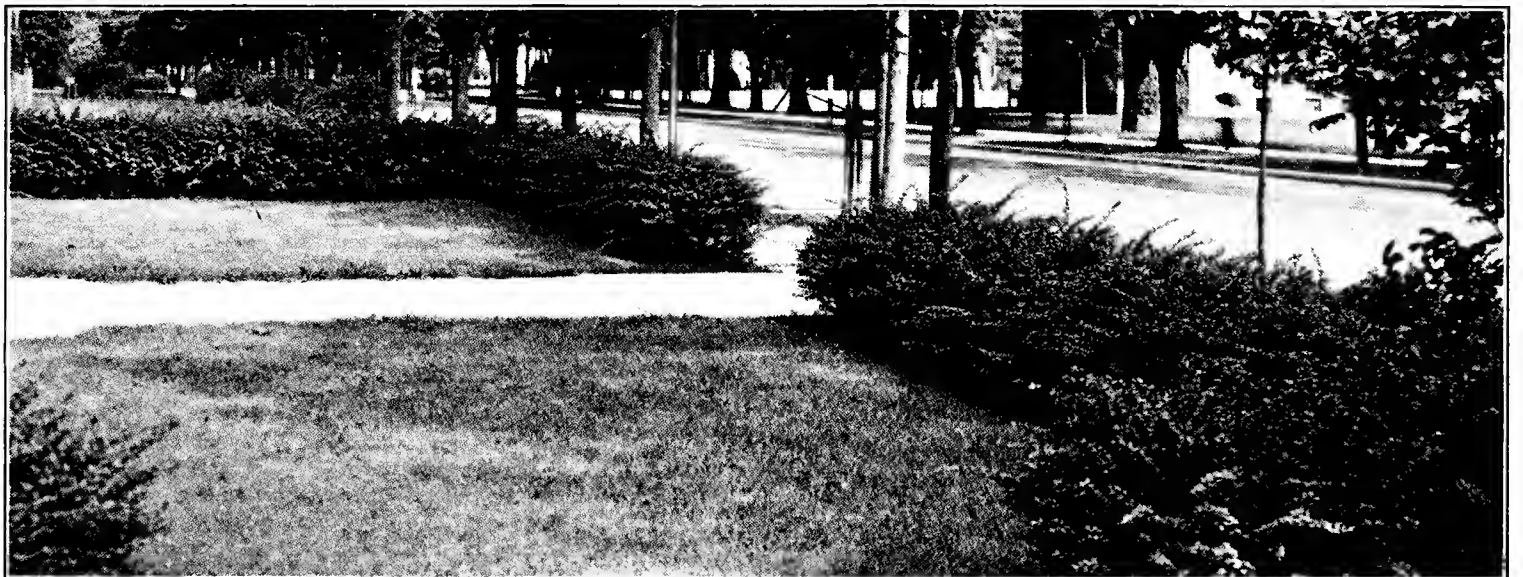

BARBERRY

Hedging

Illustration at the left shows an attractive corner planting of Barberry. Use either Barberry Thunbergi alone or in combination with the new Red Barberry—Eternal Flame, as pictured on page 7.

The picture tells the story. At the left we show the exceptionally heavy bushy root system and vigorous well-branched top of our Barberry Thunbergi. Not to be confused with ordinary sorts.

BARBERRY THUNBERGI

The hedge of beauty, density and protection. Best of all for low informal effects. The foliage is very fine, green in summer and gorgeous red and gold in the autumn. Has red berries which remain most of the winter. For a formal hedge plant 1 foot apart—for an informal hedge 2 feet apart.

AMoor River Privet

Privet Hedge

Super Quality

that insures
satisfaction

At the left we illustrate Amoor River Privet. Very hardy and dense. Recommended for planting where winters are extremely severe. For exceptional beauty select Amoor River Privet because of its compact, low branching growth.

Note the exceptionally heavy, bushy root and top growth.

CALIFORNIA PRIVET

Vigorous, northern grown for our customers. This is the standard Privet hedge which is so extensively planted. Set out Privet one foot apart for a single row hedge. For quick results or an extremely bushy, compact hedge, plant in double rows, one foot between rows, spacing plants 18 inches apart and staggered.

Plant Evergreens for Year-round Beauty

Their stately green appearance creates beauty and charm both winter and summer.

BLUE SPRUCE

We offer both Koster and Colorado Blue Spruce. The above illustration shows the care taken in packing our evergreens, thus insuring their arrival in perfect growing condition.

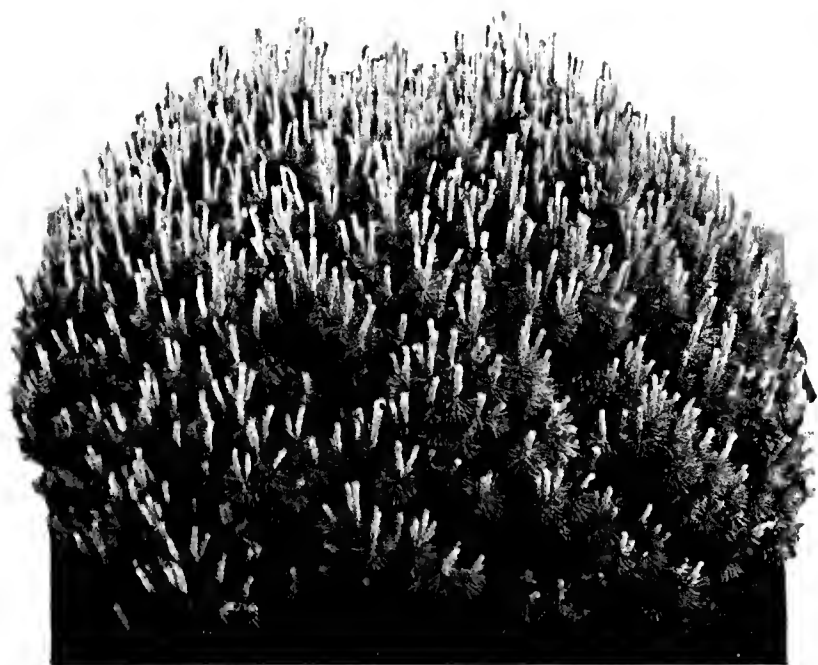

GLOBE ARBOR-VITAE

Forms a natural globe even without trimming. An excellent dwarf variety for planting on each side of entrances and for the rock garden.

PYRAMIDAL ARBOR-VITAE

Exceptionally graceful and beautiful. Grows tall and compact. Its dense green foliage makes this an outstanding favorite with many uses.

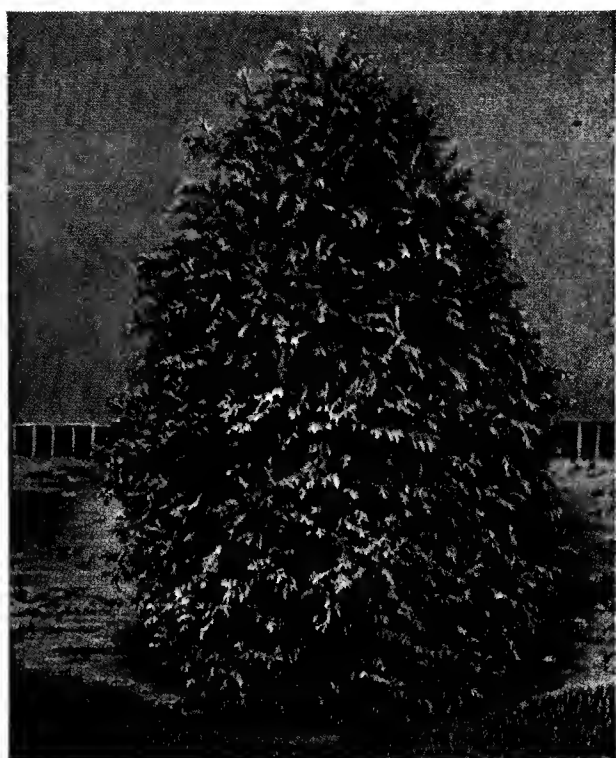

MUGHO PINE

A handsome, long needle, dwarf growing evergreen forming a bushy, compact ball. The new growth, resembling a multitude of tiny candles, is unusually fascinating. Used freely in rock gardens.

SAVIN JUNIPER

A low-growing, unusual evergreen with spreading branches. Fine for planting in front of taller evergreens, also for rock gardens.

AMERICAN ARBOR-VITAE

A practical evergreen for the foundation planting. Tall and pyramidal in growth.

NORWAY SPRUCE

Very picturesque. Extremely hardy. Rapid grower. Fine as a specimen for the lawn or planted in groups, also windbreaks.

Norway Spruce. Irish Juniper. Colorado Spruce. Pyramidal Arbor-Vitae.

Savin Juniper.

Blue Spruce.

Globe Arbor-Vitae.

Blue Spruce.

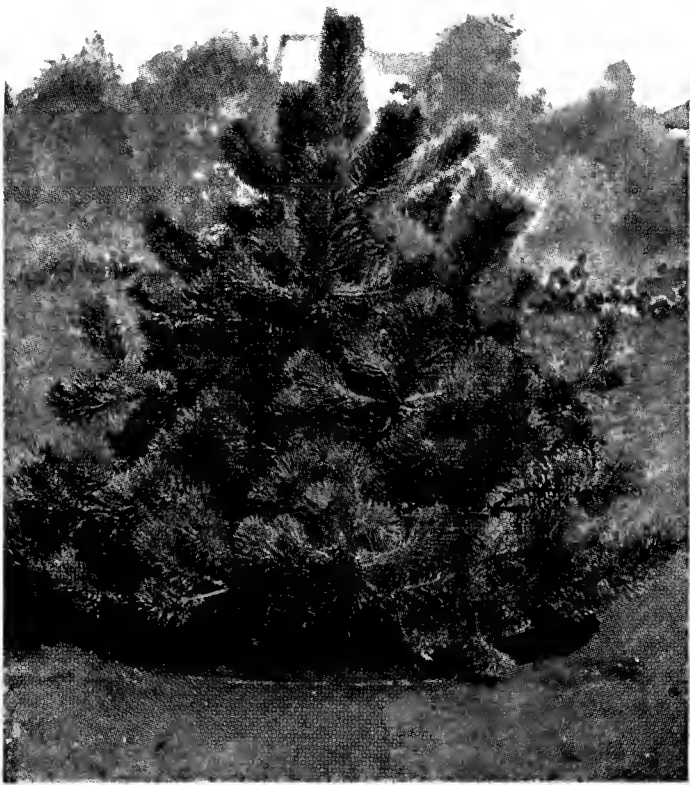

Pfitzer Juniper.

Golden Elder.

Weigela Eva Rathke.

An evergreen foundation planting will completely change the appearance of your home.

Evergreens for Specimen Planting

AUSTRIAN PINE

A vigorous, rugged growing, heavily needled tree with rich dark green foliage. Makes a fine specimen evergreen for the lawn.

DOUGLAS FIR

A dignified rapid grower. Unusually stately when planted as a lawn specimen. Foliage dark bluish green.

COLORADO BLUE SPRUCE

A very desirable, well shaped evergreen; heavy foliage of a rich glistening blue which flashes and sparkles in the sunlight.

SCOTCH PINE

Has silvery green foliage when young, turning to bright green as the tree matures. Always charming.

RETINOSPORA PLUMOSA

Very popular for foundation and lawn plantings as well as rock gardens. Foliage dense bluish green. Very desirable.

RETINOSPORA AUREA

Golden foliage soft and plume-like. A pleasing color contrast when planted with other evergreens or in the rock garden.

IRISH JUNIPER

Foliage blue-green. Very compact. Pyramidal in form of growth. Adds color contrast and height to the evergreen planting.

PFITZER JUNIPER

A very picturesque, spreading, yet compact growing, low evergreen. An absolute necessity in every evergreen planting. Nothing can take its place where a low growing bushy evergreen is needed, such as beneath windows, etc.

Small Ornamental Trees

PAUL'S DOUBLE FLOWERING THORN

A decorative tree with an abundance of carmine-red flowers in May, followed by bright red berries. It has very attractive deep cut leaves. Hardy and desirable.

PURPLE FRINGE (Smoke Tree)

A very striking and unusual little tree growing to a height of 8 to 10 feet. The flowers, which form in mid-July, are purplish in color and very dense and feathery, giving a very attractive appearance which lasts through the fall.

CATALPA BUNGEI (Umbrella Tree)

Grows 6 to 8 feet across. Plant singly or in pairs on either side of the walk. An ideal specimen lawn tree. Every tree carefully inspected before shipment. You get the very finest.

RED BUD TREE

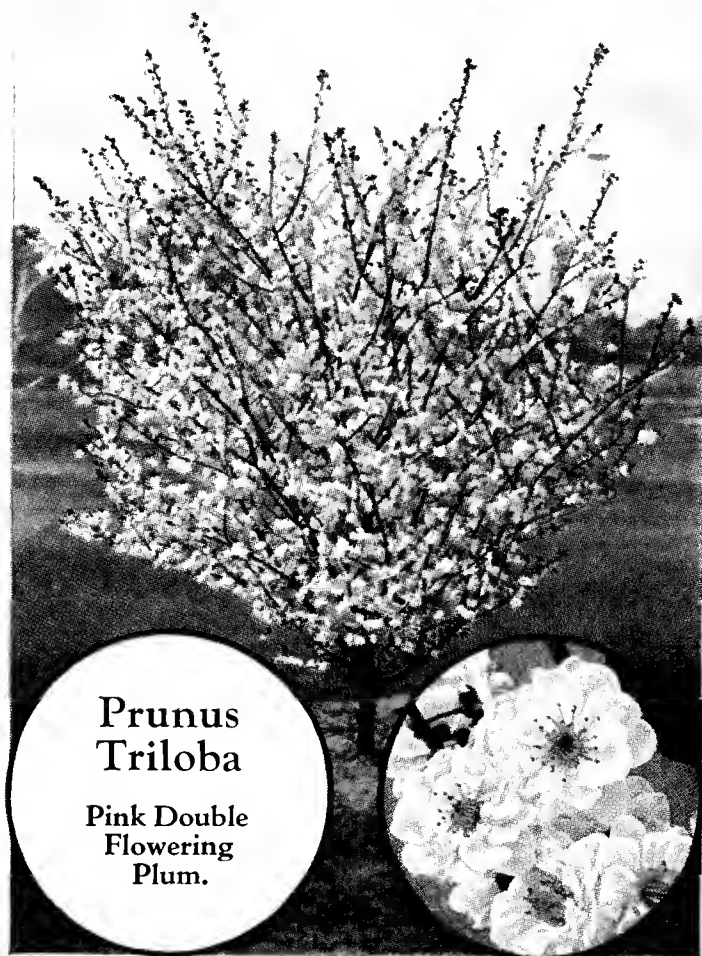

A handsome lawn tree growing 8 to 10 feet high and covered with delightful rose-magenta blossoms early in the spring before the leaves appear.

for Planting on the Lawn

JAPANESE FLOWERING CHERRY

The pride of the National Capital. Completely covered with a blanket of sweet scented blossoms in May. Hardy everywhere. Altogether charming.

Prunus Triloba

Pink Double
Flowering
Plum.

PRUNUS TRILOBA

Sometimes known as the "Rose Tree of China." Early in the spring before the leaves appear, this small tree is decked in a fleecy cloud of light pink blossoms along its slender branches.

BECHTEL'S DOUBLE FLOWERING CRAB

One of the finest of the smaller growing lawn trees—bears a profusion of delicate pink blossoms in May. Very hardy and beautiful.

TEAS' WEEPING MULBERRY

A graceful low weeping tree which grows fountain-like to the ground. Excellent when planted in pairs on both sides of the entrance to the home. A most valuable lawn specimen.

Choice Shade Trees

LINDEN

A stately tree largely used for street planting because of its beautiful round-headed, compact shape. Has large, shiny leaves, making it ideal for shade. Grows 35 to 50 feet high.

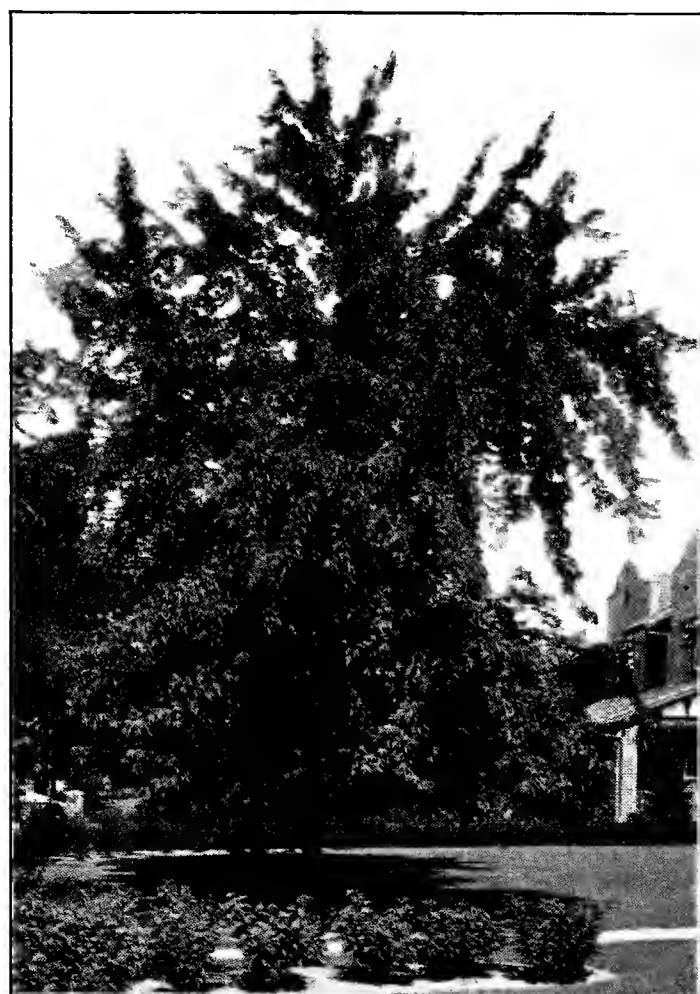

AMERICAN ELM

"The Monarch of the Avenue." Large, spreading top—finest shade tree of all for wide streets. Grows 60 feet high.

PLANE, ORIENTAL

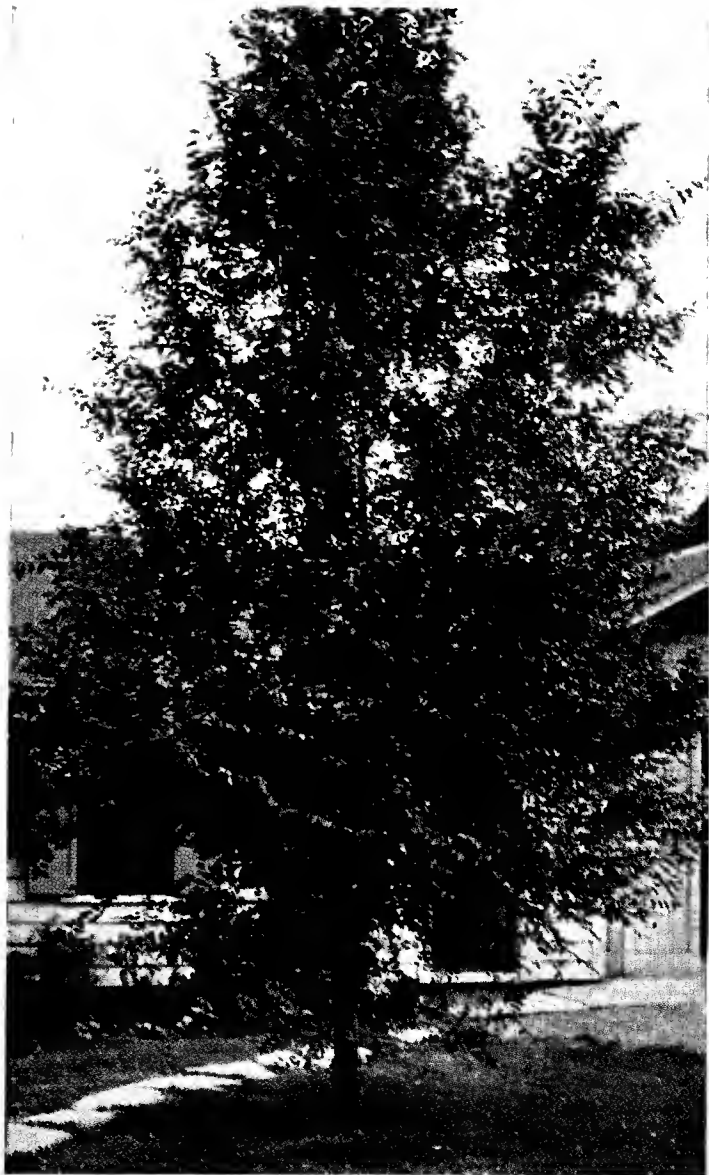

Large, quick growing, symmetrical tree. Withstands smoke and dust and thrives in city streets. Ultimate height 50 to 60 feet.

SILVER MAPLE

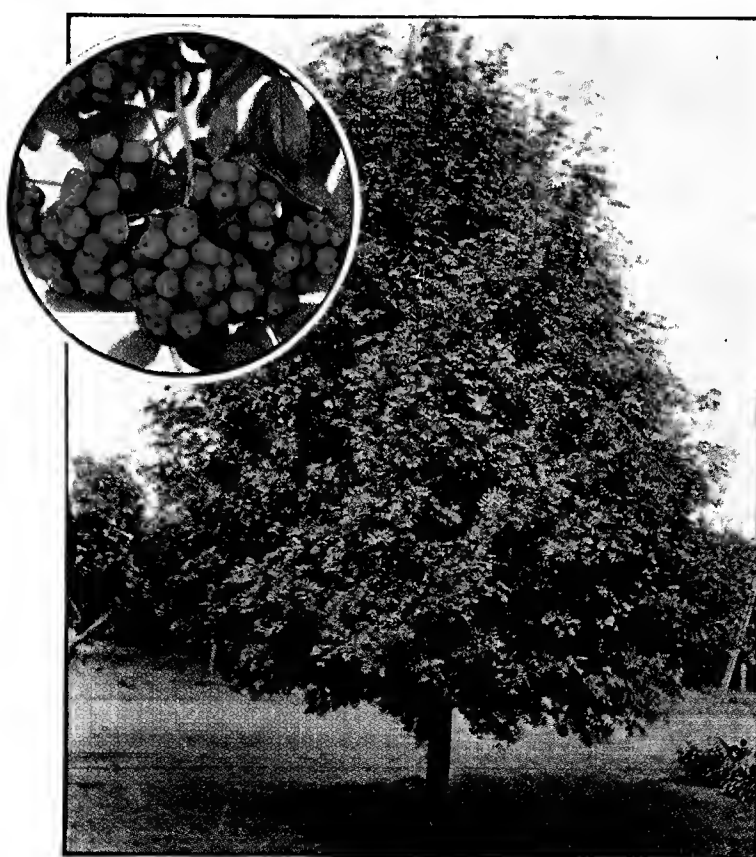

A very popular Maple. Grows compact, producing a shapely tree that is fine for shade. Thrives most anywhere, grows rapidly.

All Our Shade Trees Are Grown With Straight Trunks

CHINESE ELM

A new introduction from Northern China, also called Siberian Elm. Known as the quickest growing tree in the world, often attaining 20 feet of growth in four years.

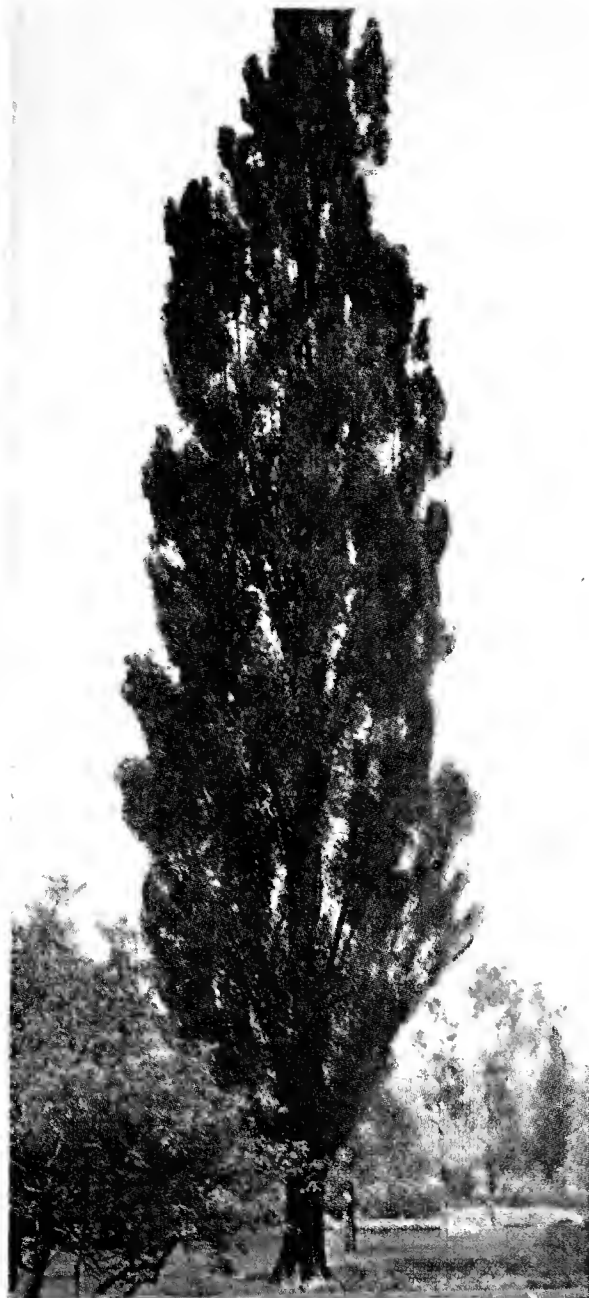

MOUNTAIN ASH

White flowers in May and June followed by very showy scarlet berries that hang in clusters till Christmas. Grows 20 to 30 feet high.

NORWAY MAPLE

Unsurpassed as a street tree. Grows 30 to 40 feet tall with a large, round, compact head and large leaves which cast a dense shade. The most valuable shade tree of all.

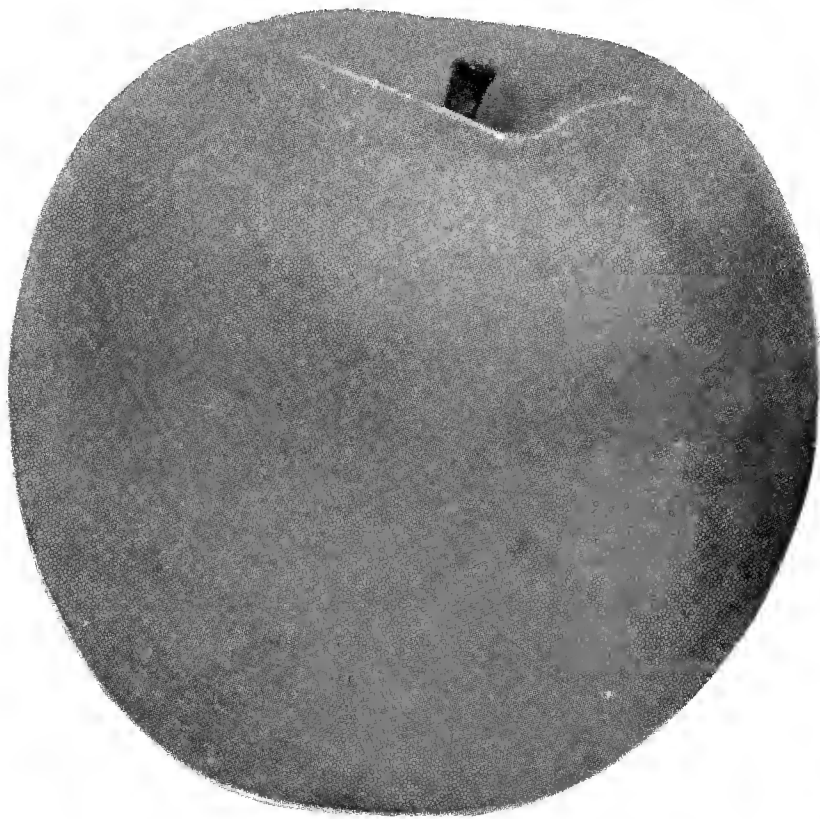

LOMBARDY POPLAR

A lofty growing tree, usually planted in rows; fine for landscape effects. A truly majestic sentinel of the sky.

Everyone Should Have Apples
